Rep. Morris-Tatum:

Assembly Rule 73 (9) provides, "When a motion to reconsider has been entered in order to return a proposal to the amendable stage, the maker of the motion may offer one new amendment to that proposal for introduction and provision to the members."

Please read this amendment closely. Because of time constraints in drafting, it may not capture your intent. If not, in the interests of time, please mark this amendment up as you wish and introduce it as a floor amendment.
