

**DRAFTER'S NOTE
FROM THE
LEGISLATIVE REFERENCE BUREAU**

LRB-0676/3dn

January 15, 1999

Because the definition of "electronic transmission" will apply outside of s. 180.0722 (2), I created the definition of "electronic transmission" not in s. 180.0722 (2) (b) 2. but at the outset of ch. 180. Also, I changed the proposed language from "similar reliable communication" to "any other similar form of reliable communication". I believe that this is a clearer expression of the same concept. Is this OK?
