4             towns, plans for residential development in towns, limitations on annexation  
5             of town territory, creating the land use board and making an appropriation.

### *Analysis by the Legislative Reference Bureau*

Currently, in general, there are no statutory provisions that restrict residential development in towns. Also under current law, town territory that is contiguous to any city or village may be annexed to that city or village under several methods. Two of the methods are: 1) direct annexation, under which a petition for annexation that was signed by the required number of electors and landowners is filed with the city or village clerk; and 2) annexation by referendum, under which a petition for referendum that was signed by the required number of electors and landowners is filed with the city or village clerk and a referendum is held and passes in the town. Under both of these methods, in a county with a population of at least 50,000, the department of administration (DOA) is authorized to mail to the clerks of the town and city or village involved in the proposed annexation a notice that states that in the opinion of DOA the annexation is against the public interest. Upon receiving such notice, the annexing municipality is required to review DOA's advice before final action is taken.

Subject to 2 general exceptions, this bill prohibits residential development in a town outside of a "residential transition area". Such an area is defined as town

**ASSEMBLY BILL 93**

territory that is identified as a transition area by a town plan that is prepared according to procedures that are created in the bill. The exceptions to the general prohibition on residential development are for certain dwellings on farmland and for residential development on a lot that, on the effective date of the bill, is included in a preliminary or final subdivision plat that has been submitted for approval or in a subdivision plat that has been recorded if the development is permitted by an existing zoning ordinance or to which no zoning ordinance applies.

Also under the bill, no city or village may annex any town territory unless the town board of the town from which the territory is proposed to be annexed adopts a plan according to the requirements under the bill and the governing body of the city or village agrees to the town plan. Under certain circumstances, approval of the plan by DOA is required and the prohibition on annexation continues until DOA either approves or disapproves the plan.

Under the bill, the adoption by a town of a plan that designates a residential transition area requires a number of steps and procedures. The town plan may be prepared by a single town, or may be cooperatively developed by any combination of cities, villages and towns. The required steps and procedures include notice to DOA and other state agencies, the clerks of various units of government that have any of their territory within five miles of the town, the clerk of the county in which the town is located and any county zoning agency or regional planning commission whose jurisdiction includes the town; public hearing requirements; and public comment requirements. The plan is also required to have a number of elements and must address a number of goals, unless the required elements or goals are inapplicable to or incompatible with the town plan and the reasons for the inapplicability or incompatibility are stated in the plan.

Required plan elements include a statement to guide future growth and development of the town, a statement of objectives to protect the environment, a statement of how the plan is consistent with the goals that are addressed in the plan, a land use element, a transportation element, a utility and facility element, an implementation element and a boundary element. Goals that must be addressed by the plan include a settlement pattern goal, a quality of wildlife and land resources goal, a recreation goal, a housing goal and a public services and utilities goal.

The requirements for establishing a town plan vary depending on whether the town has a common boundary with a city or village and on the proximity of the residential transition area to a city or village. If a town has a common boundary with a city or village, the town may establish a residential transition area within the town's "transition area jurisdiction", which is defined as the unincorporated area within three miles of the corporate limits of a first, second or third class city, or within 1.5 miles of a fourth class city or a village, if the town board approves a plan, if the city or village approves the plan and, if necessary, DOA approves the plan. If a town has a common boundary with a city or village, the town may establish a residential transition area outside of the town's transition area jurisdiction if, in addition to the requirements for establishing a residential transition area within the town's transition area jurisdiction, any other town with which the town has a common border approves the town plan. If the town has no common boundaries with a city

**ASSEMBLY BILL 93**

or village, the town may establish a residential transition area within the town if the town adopts a plan as provided in the bill. If a town plan is adopted by a town in a county with a population of at least 50,000, any elector of the town adopting the plan or of a city or village agreeing to the plan may request that DOA review and approve the plan. DOA is required to approve the plan if it complies with the required plan elements and is consistent with the goals that the plan must address. DOA's decision to approve or disapprove a town plan is subject to judicial review.

If a town and a city or a village, or a town and another town, are unable to reach an agreement on the provisions of a town plan a mediation committee, which is made up of five appointees of the county executive or chair of the county board, is required to resolve the dispute upon the request of one of the parties and determine the provisions of the town plan. The committee's decision is considered to be an agreement between the parties on the town plan, except that the committee's decision is subject to review by the state land use board, which is created in the bill. The land use board is required to resolve the dispute upon the request of one of the parties and determine the provisions of the town plan. The board's decision is considered to be an agreement between the parties on the town plan, except that the board's decision is subject to judicial review.

A town plan that is agreed to by a city or village and, if necessary, approved by DOA, is binding to the extent that it designates a residential transition area and to the extent that the plan provides for boundary freezes or adjustments. The plan may also specify other elements of the plan that, if agreed upon, are binding. Unless a city or village agrees to do so, no town plan may require a city or village to provide or extend public services or make public improvements.

Under the bill, no residential development may commence in the residential transition area until a zoning ordinance, that is consistent with the town plan, is in effect. The town may enact a zoning ordinance, notwithstanding current law limitations on the exercise of town zoning in relation to county zoning, or the town may choose to continue to operate under the zoning ordinance of another jurisdiction that applies to town territory that is included in the plan. The zoning provisions in the bill do not affect shoreland, wetlands or exclusive agricultural zoning, or airport approach ordinances.

A town plan may be amended during the term of the plan that is specified in the original plan. An amendment to a town plan is subject to agreement by the same city, village or other town that approved the original plan, and to DOA approval if DOA had to approve the original plan. If the amendment to the plan proposes to change or freeze a municipal boundary, or change the designation of a residential transition area, the same procedures that are required for the original plan must be followed for the amendment, otherwise an expedited procedure, which does not include the same hearing requirements, may be used in most cases.

9 changed during the planning period.

10 2. Identify any conditions that must be met before a boundary change may

17 for the inapplicability or incompatibility.

18 **(7) GOALS OF TOWN PLANS.** Unless a goal is incompatible with or inapplicable  
19 to the plan and the reasons for the incompatibility or inapplicability are stated as  
20 required under sub. (5) (b), a town plan prepared under this section shall address in  
21 writing the following goals:

22 (a) *Settlement pattern goal.* To plan development that results in a settlement  
23 pattern of compact urban areas separated by rural countryside or undeveloped open  
24 space. To achieve this goal:

25 1. Plans should clearly delineate between urban and rural areas.

**ASSEMBLY BILL 93**

1           2. Residential and commercial development should occur primarily in compact  
2 urban areas, and strip development which intrudes in rural countryside or open  
3 space, and other development which contributes to urban sprawl, should be  
4 discouraged. When possible, existing territory within an urban area should be  
5 developed before new territory on the edge of an urban area is developed.

6           3. Public investments, including the construction of new or modification of  
7 existing infrastructure, should reinforce the general character and planned growth  
8 patterns of the area.

9           4. Economic growth, consistent with public infrastructure plans, should occur  
10 primarily within existing urban areas and secondarily in other growth areas as  
11 specified in the town plan.

12           (b) *Quality of resources goal.* To maintain and improve the quality of wildlife  
13 and land resources.

14           (c) *Recreation goal.* To maintain and enhance recreational opportunities for  
15 residents of this state and visitors to this state. To achieve this goal:

16           1. Growth should not significantly diminish the value and availability of  
17 outdoor recreational activities.

18           2. Public access to noncommercial outdoor recreational opportunities, such as  
19 lakes and hiking trails, should be identified, provided and protected wherever  
20 appropriate.

21           (d) *Housing goal.* To ensure the availability of safe and affordable housing for  
22 residents of the state. To achieve this goal:

23           1. Housing should be encouraged to meet the needs of diverse social and income  
24 groups in each town, particularly for those residents who have low or moderate  
25 income and to avoid segregation of income groups.

**ASSEMBLY BILL 93**

1           2. New and rehabilitated housing should be safe, sanitary, located conveniently  
2 to employment and commercial centers and coordinated with the provision of  
3 necessary public facilities and utilities.

4           3. Sites for multifamily and manufactured housing should be readily available  
5 in locations with similar access to employment and commercial centers and similar  
6 amenities as the locations for single-family conventional dwellings in the same  
7 community.

8           (e) *Public services and utilities goal.* To plan for, finance and provide an  
9 efficient system of public facilities and services to meet future needs. To achieve this  
10 goal:

11           1. Public facilities and services should meet all of the needs of the community,  
12 including fire and police protection, emergency medical services, schools, water  
13 supply and distribution, sanitary sewer systems, solid waste disposal, storm water  
14 management and erosion control systems.

15           2. The rate of growth should not exceed the ability of the community and the  
16 area to provide facilities and services.

17           **(8)** ESTABLISHMENT OF RESIDENTIAL TRANSITION AREAS PROXIMATE TO A CITY OR  
18 VILLAGE. If a town has a common boundary with a city or village, the town may  
19 establish a residential transition area within the town's transition area jurisdiction  
20 if all of the following apply:

21           (a) The town board adopts a town plan under this section.

22           (b) The city or village agrees to the town plan under sub. (10).

23           (c) If necessary, the department approves the plan under sub. (14).

24           **(9)** ESTABLISHMENT OF OTHER RESIDENTIAL TRANSITION AREAS. (a) If a town has  
25 a common boundary with a city or village, the town may establish a residential

**ASSEMBLY BILL 93****SECTION 7**

1 transition area within the town that is outside of the town's transition area  
2 jurisdiction if all of the following apply:

3 1. The town board adopts a town plan under this section.

4 2. The city or village agrees to the town plan under sub. (10).

5 3. Any other town with which the town has a common boundary agrees to the  
6 town plan under sub. (11).

7 4. If necessary, the department approves the plan under sub. (14).

8 (b) If a town does not have a common boundary with a city or village, the town  
9 may establish a residential transition area within the town if the town adopts a town  
10 plan under this section.

11 **(10) AGREEMENT TO TOWN PLAN BY ADJOINING CITY OR VILLAGE.** (a) If a town board  
12 adopts a town plan under sub. (8) (a) or (9) (a) 1. the city or village with the common  
13 boundary, by resolution, shall agree to or object to the plan within 45 days after the  
14 town adopts the plan, unless the 45-day period is extended by the town. A copy of  
15 the resolution shall be sent to the clerk of the county in which the town that adopted  
16 the plan is located. Failure of a city or village to agree to or object to a town plan  
17 within the 45-day or extended period constitutes agreement to the plan and has the  
18 same effect as adoption of a resolution by the city or village agreeing to the plan.

19 (b) 1. If the city or village objects to the town plan and the parties are unable  
20 to reach agreement on the town's plan, the mediation committee under subd. 2. shall  
21 resolve the dispute if the governing body of the town or of the city or village adopts,  
22 and sends a copy to the committee, a resolution requesting that the committee settle  
23 the dispute and sends a copy of the resolution to the clerk of the other unit of  
24 government that is a party to the dispute. Both parties to the dispute shall submit  
25 written documents to the committee, in a form specified by the committee, that

1 describe their position on what provisions the town plan should contain. The  
2 documents shall be submitted to the committee within 60 days after the adoption of  
3 a resolution requesting that the committee settle the dispute. Within 60 days after  
4 receipt of the written documents, the committee shall issue a written decision that  
5 determines the provisions of the town plan. The committee's decision shall be  
6 considered to be an agreement between the parties on the town plan, except that the  
7 committee's decision may be appealed by either party to the land use board under  
8 par. (c). Under the land use board's review, the committee's decision may be affirmed,  
9 modified or vacated.

10 2. Unless a mediation committee has been created under sub. (11), the  
11 mediation committee shall consist of 5 members, who are appointed by the county  
12 executive of the county in which the town is located or, if the county does not have  
13 an executive, by the chair of the county board. Three members of the committee  
14 constitute a quorum, and the affirmative votes of 3 members are needed to take  
15 action on any issue that is before the committee. All appointees shall be confirmed  
16 by the county board. All appointees serve at the pleasure of the appointing authority.  
17 The members of the committee shall consist of the following:

- 18 a. One person who is a town chair.
- 19 b. One person who is a mayor or city manager.
- 20 c. One person who is a realtor or a developer.

25 body of the town or of the city or village adopts, and sends a copy to the board, a

**ASSEMBLY BILL 93**

1 resolution requesting that the board settle the dispute and sends a copy of the  
2 resolution to the clerk of the other unit of government that is a party to the dispute.  
3 Both parties to the dispute shall submit written documents to the board, in a form  
4 specified by the board, that describe their position on what provisions the town plan  
5 should contain. The documents shall be submitted to the board within 60 days after  
6 the adoption of a resolution requesting that the board settle the dispute. Within 60  
7 days after receipt of the written documents, the board shall issue a written decision  
8 that determines the provisions of the town plan. The board's decision shall be  
9 considered to be an agreement between the parties on the town plan, except that the  
10 board's decision is subject to judicial review under ch. 227. Under the judicial review,

15 town, the other town, by resolution, shall agree to or object to the plan within 45 days  
16 after the plan is adopted, unless the 45-day period is extended by the town that has  
17 adopted the plan. A copy of the resolution shall be sent to the clerk of the county in  
18 which the town that adopted the plan is located. Failure of a town to agree to or object  
19 to a town plan within the 45-day or extended period constitutes agreement to the  
20 plan and has the same effect as adoption of a resolution by the town agreeing to the  
21 plan.

22 (b) 1. If a town that has a common boundary with a town that adopts a plan  
23 under sub. (9) (a) 1. objects to the town plan and the parties are unable to reach

3 Both parties to the dispute shall submit written documents to the committee, in a  
4 form specified by the committee, that describe their position on what provisions the  
5 town plan should contain. The documents shall be submitted to the committee  
6 within 60 days after the adoption of a resolution requesting that the committee settle  
7 the dispute. Within 60 days after receipt of the written documents, the committee  
8 shall issue a written decision that determines the provisions of the town plan. The  
9 committee's decision shall be considered to be an agreement between the parties on  
10 the town plan, except that the committee's decision may be appealed by either party  
11 to the land use board under par. (c). Under the land use board's review, the  
12 committee's decision may be affirmed, modified or vacated.

13 2. Unless a mediation committee has been created under sub. (10), the  
14 mediation committee shall consist of 5 members, who are appointed by the county  
15 executive of the county in which the town that has adopted the plan is located or, if  
16 the county does not have an executive, by the chair of the county board. Three  
17 members of the committee constitute a quorum, and the affirmative votes of 3  
18 members are needed to take action on any issue that is before the committee. All  
19 appointees shall be confirmed by the county board. All appointees serve at the  
20 pleasure of the appointing authority. The members of the committee shall consist of  
21 the following:

- 22 a. One person who is a town chair.
- 23 b. One person who is a mayor or city manager.

7 written documents to the board, in a form specified by the board, that describe their  
8 position on what provisions the town plan should contain. The documents shall be  
9 submitted to the board within 60 days after the adoption of a resolution requesting  
10 that the board settle the dispute. Within 60 days after receipt of the written  
11 documents, the board shall issue a written decision that determines the provisions  
12 of the town plan. The board's decision shall be considered to be an agreement  
13 between the parties on the town plan, except that the board's decision is subject to  
14 judicial review under ch. 227. Under the judicial review, the board's decision may  
15 be affirmed, modified or vacated. If the board's decision is vacated, no agreement

20 the governing body of any city, village or town that has agreed to the plan under sub.  
21 (10) or (11). The town plan shall specify which, if any, other elements of the plan have  
22 been agreed to by a city, village or town, whether such elements will be binding and  
23 on whom they will be binding. The elements of a town plan that are binding have  
24 the force and effect of a contract and may be enforced by this state or by any city,  
25 village or town whose agreement to the plan was required under sub. (8) (b) or (9) (a)

1 2. or 3. Unless a city or village agrees to do so, no town plan may require a city or  
2 village to provide or extend public services or make public improvements.

4 territorial scope of a town plan shall include at a minimum the area designated by  
5 the plan as a residential transition area. The territorial scope of a town plan may  
6 include areas within the town that are outside of the residential transition area.

7 **(13) IMPLEMENTATION OF TOWN PLAN BY ZONING.** (a) No residential development  
8 may commence in a residential transition area until a zoning ordinance, that is  
9 consistent with the town plan that designates the residential transition area, is in  
10 effect. The zoning ordinance shall apply to the territory that is included in the town  
11 plan. Subject to par. (b), the zoning may be enacted by any municipality or county  
12 that has zoning jurisdiction over the territory that is included in the town plan.

13 (b) A town may enact a zoning ordinance under s. 60.61 or, notwithstanding s.

15 of zoning authority by a town under this paragraph is not subject to s. 60.10 (2) (c)  
16 and (h), 60.61 (3) or 60.62 (3). If a zoning ordinance of another jurisdiction applies  
17 to town territory that is included in a town plan, that ordinance continues until a  
18 zoning ordinance is enacted under this paragraph, except that if a residential  
19 development has commenced in a town in an area that is subject to a zoning  
20 ordinance of another jurisdiction before a town enacts a zoning ordinance under this  
21 paragraph and the residential development has received zoning approval from that  
22 jurisdiction, the residential development may continue after the town enacts a  
23 zoning ordinance under this paragraph if, at the time the residential development  
24 commenced, the lot on which the development commenced is included in a  
25 preliminary or final subdivision plat that has been submitted for approval under s.

**ASSEMBLY BILL 93****SECTION 7**

1 236.11 or in a subdivision plat that has been recorded under s. 236.25. This  
2 subsection does not affect zoning ordinances enacted under ss. 59.692, 87.30 or 91.71  
3 to 91.78 or ordinances enacted under s. 114.136 (1).

7 in a county having a population of 50,000 or more adopts a town plan and the town  
8 plan is agreed to under sub. (8) (b) or (9) (a) 2. and 3., any elector of the town adopting  
9 the plan or of a city or village agreeing to the plan may, within 30 days after the plan

11 after the plan is agreed to or is considered to have been agreed to, request in writing  
12 that the department review and approve the plan.

13 (b) If a request is made under par. (a), the department shall request the town  
14 to submit the plan for review and within 10 days after receiving the department's  
15 request, the town shall submit the plan. After receiving the plan, the department  
16 shall notify immediately the person who requested the review. The department shall  
17 approve the plan within 60 days after submittal if the plan complies with sub. (5) and  
18 is consistent with the goals under sub. (7), to the extent the goals are compatible with  
19 and relevant to the plan. The department shall issue its determination whether to  
20 approve the town plan in writing. Notwithstanding s. 227.42, a request for review  
21 of a plan under par. (a) may not be treated as a contested case, as defined in s. 227.01  
22 (3), for purposes of ch. 227.

23 (c) Any person may request a public hearing before the department on a town

3 department is required to hold only one hearing, regardless of the number of requests  
4 for a hearing.

7 whichever occurs first.

12 be amended during the term of the plan that is specified in sub. (5) (f). An  
13 amendment to a town plan is subject to agreement by the same city, village or other  
14 town that approved the underlying town plan, and is also subject to department  
15 approval if the department approved the original plan.

16 (b) *When full procedure required.* An amendment to a town plan that proposes  
17 to change or freeze a municipal boundary or change the designation of a residential  
18 transition area shall follow the same procedure as that required for an original plan.

19 (c) *When expedited procedure may occur.* An amendment to a town plan that  
20 does not propose to change a boundary shall follow the same procedure as that  
21 required for an original plan except that the hearing under sub. (4) (b) is not required  
22 unless objection to the amendment is made in writing by any person to the clerk of  
23 a participating municipality. An amendment under this paragraph shall be adopted  
24 by resolution. Notice of the amendment and adopting resolution shall follow the  
25 procedures specified in sub. (4) (a). Notice that the amendment will be adopted

**ASSEMBLY BILL 93**

1 without a public hearing unless objection is made in writing shall be given by a class  
2 3 notice under ch. 985. If no written objection to the amendment is received within  
3 7 days after the last required notice is published, the amendment may be adopted  
4 without a public hearing. If written objection is timely made, the public hearing and  
5 other requirements under sub. (4) (b) and (c) apply.

14 sub. (10), the town board of another town agrees to the town plan under sub. (11), if  
15 necessary, and the plan is approved by the department under sub. (14), if necessary,  
16 the common boundary between the city or village and the town that is covered by the  
17 town plan under this section may be revised during the term of the plan only as  
18 provided under the town plan.

19 **(19) BOUNDARY CHANGE ORDINANCE; FILING AND RECORDING REQUIREMENTS.** A
