Assumptions Used in Arriving at Fiscal Estimate

The number of criminal cases that will result from the simple application of the provisions of this bill will probably be very small. It is more likely that the person charged will have a variety of other charges also filed against him or her. Thus the illegal use of the internet is not likely to significantly increase the number of criminal cases against such persons. The additional illegal internet usage charge may increase the time needed by prosecutors in developing and proving such cases but the amount of such extra time is unknown.

County costs of the district attorneys' offices are directly related to the state costs. Thus any increase in county costs would be minimal.
