### ***Analysis by the Legislative Reference Bureau***

Under current law, an individual who has an gross income of 115% of the federal poverty line or less and who meets certain other financial and nonfinancial criteria is eligible for Wisconsin works (W-2). In calculating the gross income of an individual, a W-2 agency must include all earned and unearned income of that individual except amounts received under W-2 or as an earned income tax credit.

This bill prohibits a W-2 agency, in calculating an individual's earned and unearned income, from considering income earned by a dependent child (generally, a child under the age of 18) of the individual or by the individual's developmentally disabled child who is under the age of 22 and is attending elementary, secondary or technical school.

For further information see the ***state and local*** fiscal estimate, which will be printed as an appendix to this bill.
