### ***Analysis by the Legislative Reference Bureau***

Under current law, counties provide social services for low-income persons and services for persons with needs related to mental illness, substance abuse or developmental disabilities. Currently, federal and state funds, known as community aids funds, are available to counties for the provision of those services. Counties that receive community aids funds must provide matching funds equal to 9.89% of the cost of the service, in the case of certain community services, or of 9.89% of the funding received, in the case of certain other social services.

This bill lowers the matching requirement to 5% of the cost of services in counties with a poverty rate exceeding 30%.

For further information see the ***state and local*** fiscal estimate, which will be printed as an appendix to this bill.
