

**DRAFTER'S NOTE  
FROM THE  
LEGISLATIVE REFERENCE BUREAU**

Representative Schneider:

Your instructions for this draft were very vague, so I am not at all certain that I've effected your intent. The language for the created section in this draft is cribbed from s. 36.11 (35). If it is not what you intended, please give me more specific instructions. It may be useful to include examples of the type of problem that you are trying to address through this legislation. I would be happy to meet with you to discuss the draft if you would like.
