Assumptions Used in Arriving at Fiscal Estimate

This bill makes revisions to the OWI laws including: 1) permitting ignition interlock on 1st offense; 2) prohibiting persons with three or more OWI convictions from operating a vehicle with a BAC of more than .02; 3) increases mandatory imprisonment times; 4) creating a tiered BAC system with varying increased penalties, and 5) providing mandatory driver's license suspensions for underage drinking violations.

It is expected that the increased penalties and mandatory imprisonment times will cause more cases to be contested resulting in more trials and jury trials. The same can be said for the mandatory license suspension for underage drinking violations. Also, it is expected that fewer underage persons will attend alcohol education programs because the possibility of a suspension presently serves as encouragement for them to attend the classes. Once suspension is mandatory that incentive is removed. Additional driving after suspension violations can also be expected. This additional litigation increases both state and county costs for the courts by requiring additional judge, court reporter, court staff and juror time. The exact increase in costs is impossible to predict with the data available.

Long-Range Fiscal Implications

Agency/Prepared by: (Name & Phone No.) Director of State Courts	Authorized Signature/Telephone No. 6-6984 	Date 4/13/99
--	---	-----------------

The tiered BAC system will require judges to modify their existing OWI sentencing guidelines which are required by statute. It may also result in additional plea bargaining.
