Assumptions Used in Arriving at Fiscal Estimate

This bill requires the Department to ensure the provision of training on Sudden Infant Death Syndrome (SIDS) as a part of the certification process for child care providers. The bill would add a minor process to the child care certification process administered by county agencies. The Department will include information regarding SIDS prevention in the process to certify and recertify family child care providers. DWD will require local certifiers to include printed information in the packets and ensure that all providers are made aware of this important safety feature. DWD assumes that the enactment of this bill would add a relatively minor requirement to the child care certification process administered by county agencies with no appreciable impact on cost.
