Representative Urban:

This amendment maintains the language covering persons "traveling to" the premises of a needle exchange program. I have been unable to come up with other language that limits the applicability of the provision without drawing a potentially arbitrary geographical line (e.g., within 1,000 feet of the premises of a needle exchange program). As I mentioned during our telephone conversation, whether a person is "traveling to" a needle exchange program will have to be determined based on the facts of the particular case.
