Assumptions Used in Arriving at Fiscal Estimate:		
<p>AB-277 would eliminate the exception from the fiscal estimate requirement for bills containing penalty provisions. During the 1997-99 regular and special sessions, it appears that 192 bills contained the phrase "providing a penalty" or "providing penalties". A sampling of these 192 bills indicates that roughly 40% required a fiscal estimate already for a reason other than the provision of a penalty; the remaining 60% did not. As a result, we can expect that, over a biennium, roughly 115 introduced bills that do not currently require a fiscal estimate will require fiscal estimates if AB-277 is enacted. In addition to introduced bills, in a small number of cases, fiscal estimates are requested for un-introduced bills. We estimate that an additional 60-70 bills annually will require fiscal estimates if AB-277 is enacted. The Legislative Reference Bureau is likely to incur two main types of additional costs for these additional bills: additional printing costs (from s. 20.765 (1) (d)) and additional costs in processing the fiscal estimates (from s. 20.765 (3) (d)).</p> <p>Printing. DOA charges the LRB roughly \$.02 per side for printing. Although fiscal estimates vary in size, two sides is standard. We generally print 318 copies of each fiscal estimate (25 for the LRB, 43 for the Senate, 105 for the Assembly and 145 for the legislative documents room). For each additional fiscal estimate that is printed, we estimate our printing cost to be \$12.72 (318 x 2 x \$.02). While we are unable to predict exactly which agencies DOA will select to prepare fiscal estimates for "penalty bills", we expect that DOA may request fiscal estimates from the department of corrections, the courts, the district attorneys, the public defender board and the department of justice. Assuming that a fiscal estimate requirement for a penalty bill will trigger five different fiscal estimates for each of an additional 65 "penalty bills", the annual printing costs for the bureau would be approximately \$4,134 (65 x 5 x \$12.72).</p> <p>Staff Processing. For each additional fiscal estimate, a program assistant enters a range of tracking data about the fiscal estimate request and scans the fiscal estimate into the docbase; he or she also answers telephone calls regarding fiscal estimate status. Although the exact processing time varies for each fiscal estimate, our program assistants estimate that it generally takes about 20 minutes per fiscal estimate to complete all required processing tasks. Assuming 325 additional fiscal estimates result from AB 277, an additional 108 hours of processing time can be expected. Assuming a salary of \$11.94 for this processing time, the cost of the additional staff time would be \$1,593 (108 x \$11.94 X 1.236 fringe multiplier).</p>		
Long-Range Fiscal Implications:		
If the number of bills introduced in a legislative session continues to grow over time, it could be expected that the costs of AB-277 would also increase gradually over time.
