

**DRAFTER'S NOTE  
FROM THE  
LEGISLATIVE REFERENCE BUREAU**

LRBs0226/1dn  
PEN:jlg:km

December 13, 1999

**Representative Skindrud:**

No person may operate a fish farm in this state without registering with DATCP under s. 95.60 (3m). Fish farms using a natural body of water need a permit from DNR issued under s. 29.733, but still must register with DATCP. It is not necessary to specify both DATCP-registered and DNR-permitted, since every DNR-permitted fish farm must be DATCP-registered. This substitute amendment covers all fish farms, including those using natural bodies of water.
