

**DRAFTER'S NOTE  
FROM THE  
LEGISLATIVE REFERENCE BUREAU**

LRB-1776/2dn  
MGG:jlj:ijs

March 31, 1999

1. I defined "panfish" because I do not think the term, without definition, is precise enough. I expect that you will want to make changes to the definition, but I think one is necessary.
2. Do you want to limit the types of evidence, such as biological or environment evidence, that DNR may use?
