

**DRAFTER'S NOTE
FROM THE
LEGISLATIVE REFERENCE BUREAU**

LRB-3218/2dn
RNK:kmg:jf

August 6, 1999

Under this draft, s. 30.135 (1) (a) is renumbered and amended to delete the requirement that a water ski platform or jump must not interfere with public rights in navigable waters in order to be placed in a navigable waterway without a permit. The draft, as requested, provides that the placement of the platform or jump must be consistent with the public trust in navigable waters under the constitution. It seems that these provisions have the same effect. Is this consistent with your intent? If so, you may want to consider simply retaining the language as it currently exists in the statutes.
