

DRAFTER'S NOTE
FROM THE
LEGISLATIVE REFERENCE BUREAU

LRB-2427/1dn

RJM:jlg:km

March 16, 1999

1. Please note that the attached draft contains a delayed effective date, in order to allow the department of commerce time to update the applicable sections of the administrative code. If you do not desire this delayed effective date, please let me know.
2. The constituent who generated this request indicated to me that the draft should allow a plumber or utility contractor to install underground piping up to the first flange above the finished floor in a building. It is my understanding that all piping up to this flange is considered underground piping. Thus, I have not referenced this flange in the attached draft. Please let me know if this is inconsistent with your intent.
