### ***Analysis by the Legislative Reference Bureau***

Under current law, Milwaukee Public Schools (MPS) must establish geographical areas (attendance areas) within MPS for designating the elementary, middle, high or other school that pupils residing in the attendance area would normally attend. Current law also requires each school in MPS to be open to pupils

**ASSEMBLY BILL 468**

residing in the attendance area established for that school. A pupil may attend a school in an attendance area other than the one in which he or she resides with the written permission of the superintendent of schools.

This bill provides that, beginning in the 2000–01 school year, the MPS board must provide spaces in each school for pupils who reside outside the attendance area for the school, but must fill any unused spaces with pupils who reside in the attendance area. A pupil who attends a school may continue to attend that school until he or she graduates from the school; in addition, the MPS board must give each sibling of that pupil priority over other pupils in the process of admission for that school.

Under current law, the integration aid program (commonly known as chapter 220) transfers pupils between school districts and between schools to promote racial integration. In addition to receiving interdistrict transfer aid under chapter 220, the MPS board receives intradistrict transfer aid for each minority pupil who is transferred from an attendance area where minority pupils comprise 30% or more of the population to an attendance area that has less than a 30% minority pupil population and for each nonminority pupil who is transferred from a nonminority attendance area (less than 30% minority) to a minority attendance area (30% or more minority). The aid MPS receives is calculated by multiplying the number of eligible transfer pupils by 0.25 and then multiplying this product by MPS's equalization aid payment per pupil for the current school year.

This bill provides that the MPS board may not receive intradistrict transfer aid for a certain percentage of pupils who are transferred from one attendance area to another without the written permission of a parent or guardian. More specifically, in the 2000–01 school year, MPS may not receive aid for that percentage of intradistrict transfer pupils below 75% (target percentage) who are transferred without parental permission. In the 2001–02 school year, the target percentage is 80%, in the 2002–03 school year, the target percentage is 90% and in the 2004–5 school year and subsequent school years, the target percentage is 100%. The MPS board must report annually to the legislature the number, percentage, race, sex, grade and attendance area of pupils transferred between attendance areas without written, parental consent.

Under the current “Blight Elimination and Slum Clearance Act”, a redevelopment authority is created in every city, village and town in which slum and blighted areas exist to engage in blight elimination, slum clearance and urban renewal programs. The powers of such redevelopment authorities include the power to carry out redevelopment and urban renewal projects, to acquire real or personal property for such projects and to borrow money and issue bonds in connection with such projects. Generally, a redevelopment authority's bonds are payable, with respect to interest and principal, solely from the income or revenues derived from or in connection with the authority's projects or activities.

Under the bill, the redevelopment authority in the city of Milwaukee is specifically authorized to issue up to \$200,000,000 in bonds to be used to finance capital improvements at the request of the MPS board. The MPS board may use intradistrict transfer aid to pay debt service on the bonds. If the MPS board decides

**ASSEMBLY BILL 468**

to use the aid to pay the debt service, it must request the department of public instruction (DPI) to remit the aid to the redevelopment authority in an annual amount agreed to by the MPS board and DPI. The bill also guarantees the MPS board the amount of intradistrict transfer aid that it received in the 1998–99 school year (adjusted for inflation for the years since the 1998–99 school year), reduced by aid for those pupils transferred without consent, or the amount of intradistrict transfer aid to which the MPS board is entitled, reduced by aid for those pupils transferred without consent, whichever is greater. This guarantee expires in the first fiscal year following the last principal and interest payment on the redevelopment authority bonds or, if no bonds are issued, within five years of the effective date of this bill.

In addition, the \$200,000,000 in bonds that are authorized in the bill are subject to a “state moral obligation pledge”. This pledge provides that if there are not sufficient funds in debt service reserve funds for the repayment of the bonds, “the legislature expresses its expectation and aspiration” that it will make an appropriation to restore the sufficiency of the debt service reserve funds. The bonds would be subject to the “state moral obligation pledge” only if the secretary of administration determines, among other things, that there is a reasonable likelihood that the bonds will be repaid without the necessity of drawing on funds in the debt service reserve funds.

This bill also requests the joint legislative council to conduct a study of the chapter 220 program and to report its findings, conclusions and recommendations to the legislature by January 1, 2000 and requires the MPS board to submit a report to the joint committee on finance by May 1, 2000, on the board’s strategy for expanding or renovating neighborhood schools and for decreasing the percentage of intradistrict transfer pupils transferred without parental consent. The joint committee on finance must approve the report, and any modifications to the report, by September 1, 2000. DPI may not distribute any intradistrict transfer aid to the MPS board until this approval.

Under current law, a pupil who transfers from one school district to another under chapter 220 is counted as one pupil for state aid and revenue limit purposes by the school district in which the pupil resides. This bill provides that beginning in the 2001–02 school year each transfer pupil is counted by the school district in which he or she resides as one-half pupil for state aid and revenue limit purposes.

Under current law, DPI distributes funds to MPS for a variety of early childhood education programs. DPI’s appropriation for this purpose is funded with general purpose revenues. This bill funds two of these programs with moneys from the federal temporary assistance for needy families block grant. No state or federal aid is directly provided for the other programs, but the bill specifies the minimum amount the MPS board must spend for each program.

9 the income, proceeds, revenues, and funds of the authority derived from or held in  
10 connection with its undertaking and carrying out of projects or activities under this  
11 section; provided that payment of such bonds, both as to principal and interest, may  
12 be further secured by a pledge of any loan, grant or contribution from the federal  
13 government or other source, in aid of any projects or activities of the authority under  
14 this section, and by a mortgage of any such projects or activities, or any part thereof.  
15 Bonds issued under this section shall not constitute an indebtedness within the  
16 meaning of any constitutional or statutory debt limitation or restriction of the state,  
17 city or of any public body other than the authority issuing the bonds, and shall not  
18 be subject to any other law or charter relating to the authorization, issuance or sale  
19 of bonds. Bonds issued under this section are declared to be issued for an essential  
20 public and governmental purpose and, together with interest thereon and income  
21 therefrom, shall be exempt from all taxes. Bonds issued under this section shall be  
22 authorized by resolution of the authority and may be issued in one or more series and

5 as provided in s. 67.08 (1) and may be registered under s. 67.09. The bonds may be  
6 sold or exchanged at public sale or by private negotiation with bond underwriters as  
7 the authority may provide. The bonds may be sold or exchanged at such price or  
8 prices as the authority shall determine. If sold or exchanged at public sale, the sale  
9 shall be held after a class 2 notice, under ch. 985, published prior to such sale in a  
10 newspaper having general circulation in the city and in such other medium of  
11 publication as the authority determines. Such bonds may be sold to the federal  
12 government at private sale, without publication of any notice, at not less than par,  
13 and, if less than all of the authorized principal amount of such bonds is sold to the  
14 federal government, the balance may be sold at private sale at not less than par at  
15 an interest cost to the authority of not to exceed the interest cost to the authority of  
16 the portion of the bonds sold to the federal government. Any provision of any law to  
17 the contrary notwithstanding, any bonds issued pursuant to this section shall be  
18 fully negotiable. In any suit, action or proceeding involving the validity or  
19 enforceability of any bond issued under this section or the security therefor, any such  
20 bond reciting in substance that it has been issued by the authority in connection with  
21 a project or activity under this section shall be conclusively deemed to have been  
22 issued for such purpose and such project or activity shall be conclusively deemed to  
23 have been planned, located and carried out in accordance with this section.

24 **SECTION 7.** 66.431 (5) (a) 4. d. of the statutes is created to read:

**ASSEMBLY BILL 468**

1           66.431 (5) (a) 4. d. Subject to sub. (5m), the authority of a 1st class city may  
2 issue up to \$200,000,000 in bonds to finance capital improvements at the request of  
3 the board of school directors of the school district operating under ch. 119 to  
4 implement the report approved under 1999 Wisconsin Act .... (this act), section 38 (2)  
5 (b). Bonds issued under this subd. 4. d. may not have a maturity in excess of 20 years,  
6 and may not be issued later than the first day of the 60th month beginning after the  
7 effective date of this subdivision 4. d. .... [revisor inserts date]. Principal and interest  
8 payments on bonds issued under this subd. 4. d. may be paid by the board of school  
9 directors of the school district operating under ch. 119.

10           **SECTION 8.** 66.431 (5m) of the statutes is created to read:

11           66.431 (5m) SPECIAL DEBT SERVICE RESERVE FUNDS. (a) *Designation of special*  
12 *debt service reserve funds.* The authority may designate one or more accounts in  
13 funds created under s. 66.066 (2) (e) as special debt service reserve funds if, prior to  
14 each issuance of bonds to be secured by the special debt service reserve fund, the  
15 secretary of administration determines that all of the following conditions are met  
16 with respect to the bonds described under sub. (5) (a) 4. d.:

17           1. ‘Purpose.’ The proceeds of the bonds, other than refunding bonds, will be  
18 used for public school facilities in the school district operating under ch. 119.

19           2. ‘Feasibility.’ There is a reasonable likelihood that the bonds will be repaid  
20 without the necessity of drawing on funds in the special debt service reserve fund  
21 that secures the bonds. The secretary of administration may make this  
22 determination of reasonable likelihood only after considering all of the following:

23           a. Whether a pledge of the revenues of the school district operating under ch.  
24 119 is made under the bond resolution.

**ASSEMBLY BILL 468****SECTION 8**

1           b. How the revenues of the school district operating under ch. 119 are pledged  
2 to the payment of the bonds.

3           c. The proposed interest rates of the bonds and the resulting cash-flow  
4 requirements.

5           d. The projected ratio of annual revenues from the school district operating  
6 under ch. 119 to annual debt service of the authority, taking into account capitalized  
7 interest.

8           e. Whether an understanding exists providing for repayment by the authority  
9 to the state of all amounts appropriated to the special debt service reserve fund  
10 pursuant to par. (g).

11           f. Whether the authority has agreed that the department of administration will  
12 have direct and immediate access, at any time and without notice, to all records of  
13 the authority relating to the bonds.

14           3. ‘Limit on bonds issued.’ The amount of all bonds, other than refunding  
15 bonds, that would be secured by all special debt service reserve funds of the authority  
16 will not exceed \$200,000,000.

17           4. ‘Refunding bonds.’ All refunding bonds to be secured by the special debt  
18 service reserve fund meet all of the following conditions:

19           a. The refunding bonds are to be issued to fund, refund or advance refund bonds  
20 secured by a special debt service reserve fund.

21           b. The refunding of bonds by the refunding bonds will not adversely affect the  
22 risk that the state will be called on to make a payment under par. (g).

23           5. ‘Approval of outstanding debt.’ All outstanding debt of the authority relating  
24 to the bonds has been reviewed and approved by the secretary of administration. In  
25 determining whether to approve outstanding debt under this subdivision, the

**ASSEMBLY BILL 468**

1 secretary may consider any factor which the secretary determines to have a bearing  
2 on whether the state moral obligation pledge under par. (g) should be granted with  
3 respect to an issuance of bonds.

4 6. 'Financial reports.' The authority has agreed to provide to the department  
5 of administration all financial reports of the authority and all regular monthly  
6 statements of any trustee of the bonds on a direct and ongoing basis.

7 (b) *Payment of funds into a special debt service reserve fund.* The authority  
8 shall pay into any special debt service reserve fund of the authority any moneys  
9 appropriated and made available by the state for the purposes of the special debt  
10 service reserve fund, any proceeds of a sale of bonds described under sub. (5) (a) 4.  
11 d. to the extent provided in the bond resolution authorizing the issuance of the bonds  
12 and any other moneys that are made available to the authority for the purpose of the  
13 special debt service reserve fund from any other source.

14 (c) *Use of moneys in the special debt service reserve fund.* All moneys held in  
15 any special debt service reserve fund of the authority, except as otherwise specifically  
16 provided, shall be used solely for the payment of the principal of bonds secured in  
17 whole or in part by the special debt service reserve fund, the making of sinking fund  
18 payments with respect to these bonds, the purchase or redemption of these bonds,  
19 the payment of interest on these bonds or the payment of any redemption premium  
20 required to be paid when these bonds are redeemed prior to maturity. If moneys in  
21 a special debt service reserve fund at any time are less than the special debt service  
22 reserve fund requirement under par. (e) for the special debt service reserve fund, the  
23 authority may not use these moneys for any optional purchase or optional  
24 redemption of the bonds. Any income or interest earned by, or increment to, any  
25 special debt service reserve fund due to the investment of moneys in the special debt

**ASSEMBLY BILL 468****SECTION 8**

1 service reserve fund may be transferred by the authority to other funds or accounts  
2 of the authority relating to the bonds to the extent that the transfer does not reduce  
3 the amount of the special debt service reserve fund below the special debt service  
4 reserve fund requirement under par. (e) for the special debt service reserve fund.

5 (d) *Limitation on bonds secured by a special debt service reserve fund.* The  
6 authority shall accumulate in each special debt service reserve fund an amount equal  
7 to the special debt service reserve fund requirement under par. (e) for the special debt  
8 service reserve fund. The authority may not at any time issue bonds secured in whole  
9 or in part by a special debt service reserve fund if upon the issuance of these bonds  
10 the amount in the special debt service reserve fund will be less than the special debt  
11 service reserve fund requirement under par. (e) for the special debt service reserve  
12 fund.

13 (e) *Special debt service reserve fund requirement.* The special debt service  
14 reserve fund requirement for a special debt service reserve fund, as of any particular  
15 date of computation, is equal to an amount of money, as provided in the bond  
16 resolution authorizing the bonds with respect to which the special debt service  
17 reserve fund is established, that may not exceed the maximum annual debt service  
18 on the bonds of the authority for that fiscal year or any future fiscal year of the  
19 authority secured in whole or in part by that special debt service reserve fund. In  
20 computing the annual debt service for any fiscal year, bonds deemed to have been  
21 paid in accordance with the defeasance provisions of the bond resolution authorizing  
22 the issuance of the bonds shall not be included in bonds outstanding on such date of  
23 computation. The annual debt service for any fiscal year is the amount of money  
24 equal to the aggregate of all of the following calculated on the assumption that the  
25 bonds will, after the date of computation, cease to be outstanding by reason, but only

**ASSEMBLY BILL 468**

1 by reason, of the payment of bonds when due, and the payment when due, and  
2 application in accordance with the bond resolution authorizing those bonds, of all of  
3 the sinking fund payments payable at or after the date of computation:

4 1. All interest payable during the fiscal year on all bonds that are secured in  
5 whole or in part by the special debt service reserve fund and that are outstanding on  
6 the date of computation.

7 2. The principal amount of all of the bonds that are secured in whole or in part  
8 by the special debt service reserve fund, are outstanding on the date of computation  
9 and mature during the fiscal year.

10 3. All amounts specified in bond resolutions of the authority authorizing any  
11 of the bonds that are secured in whole or in part by the special debt service reserve  
12 fund to be payable during the fiscal year as a sinking fund payment with respect to  
13 any of the bonds that mature after the fiscal year.

14 (f) *Valuation of securities.* In computing the amount of a special debt service  
15 reserve fund for the purposes of this subsection, securities in which all or a portion  
16 of the special debt service reserve fund is invested shall be valued at par, or, if  
17 purchased at less than par, at their cost to the authority.

18 (g) *State moral obligation pledge.* If at any time of valuation the special debt  
19 service reserve fund requirement under par. (e) for a special debt service reserve fund  
20 exceeds the amount of moneys in the special debt service reserve fund, the authority  
21 shall certify to the secretary of administration, the governor and the joint committee  
22 on finance the amount necessary to restore the special debt service reserve fund to  
23 an amount equal to the special debt service reserve fund requirement under par. (e)  
24 for the special debt service reserve fund. If this certification is received by the  
25 secretary of administration in an even-numbered year prior to the completion of the

**ASSEMBLY BILL 468****SECTION 8**

1 budget compilation under s. 16.43, the secretary shall include the certified amount  
2 in the budget compilation. In any case, the joint committee on finance shall introduce  
3 in either house, in bill form, an appropriation of the amount so certified to the  
4 appropriate special debt service reserve fund of the authority. Recognizing its moral  
5 obligation to do so, the legislature hereby expresses its expectation and aspiration  
6 that, if ever called upon to do so, it shall make this appropriation.
