Representative Plale:

In reviewing AB-557, I noticed a drafting error. That bill creates 2 issuance fees, one of \$10 and one of \$15. See the treatment of s. 341.14 (6r) (b) 2. and 3. The second issuance fee of \$15 should not have been included in your bill.

This amendment deletes that erroneous \$15 fee provision. This change is consistent with the analysis, which states that the issuance fee is \$10, plus an annual contribution of \$25 for the conservation fund (in addition to the annual registration fee).

I am sorry for the inconvenience.
