1 **AN ACT to renumber and amend** 49.45 (6t); and **to create** 49.45 (6t) (b) and
2 49.45 (24p) of the statutes; **relating to:** designating personal care shortage
3 areas, reimbursement for losses in the provision of personal care services,
4 providing a supplement for hourly medical assistance reimbursement rates for
5 in-home personal care services workers, providing an exemption from
6 emergency rule procedures, requiring the exercise of rule-making authority
7 and making appropriations.

Analysis by the Legislative Reference Bureau

This bill requires the department of health and family services (DHFS) to designate personal care shortage areas in the state and to reimburse providers of personal care services in those areas, from general program revenues, at 125% of the medical assistance reimbursement rate for the provision of personal care services in areas of the state that are not designated as personal care shortage areas. The bill requires DHFS to specify criteria, by rule, for the designation of areas as personal care shortage areas and authorizes DHFS to promulgate the rules as emergency rules without providing evidence of necessity for the preservation of the public peace, health, safety or welfare and without providing a finding of emergency.

Under current law, as affected by 1999 Wisconsin Act 9 (the biennial budget act), the hourly medical assistance reimbursement rate for workers providing

ASSEMBLY BILL 630

in-home personal care services is \$12.25. The bill increases the reimbursement rate by \$3.25, to \$15.50 per hour.

Under current law, county departments of social services, human services and community programs and local health departments provide certain services, including personal care services, to medical assistance recipients. DHFS distributes to these county departments and local health departments up to \$4,500,000 of federal medicaid moneys in each fiscal year, under a method developed by DHFS, to reduce losses incurred by the county departments and local health departments in providing the services. The bill requires that DHFS annually distribute general purpose revenues to supplement by 15% each of those distributions, in order to additionally reimburse county departments and local health departments for a portion of losses incurred in providing personal care services to medical assistance recipients after December 31, 1999.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
