STATE OF WISCONSIN
 DEPARTMENT OF ADMINISTRATION
 101 East Wilson Street, Madison, Wisconsin

Mailing Address:
 Post Office Box 7864
 Madison, WI 53707-7864

TOMMY G. THOMPSON
 GOVERNOR
 MARK D. BUGHER
 SECRETARY

November 24, 1998

Mr. Gordon Anderson
 Staff Attorney
 Legislative Council
 1 East Main Street, Suite 401
 Madison, WI 53701-2536

Dear Mr. Anderson:

We apologize for the delay in responding to your memorandum regarding remedial - - - - legislation requests. As you suggested, the Department submits the following remedial proposals for your consideration.

The proposed changes deal with remediating obsolete references in state law regarding the federal Low Income Home Energy Assistance Program (LIHEAP). In our opinion, the proposals do not require extensive explanations, do not involve **significant** policy changes and have no fiscal effect. Therefore, the Department requests your consideration of the following proposals:

^(b)
1. Repeal ss. 16.385(1)(d), (e) and (2)(b), Stats.:

Administrative/Substantive Problem:

The Department recommends elimination of this language because this was a test project in 1985, which was not effective in Wisconsin, and subsequently dropped. The program lasted one year.

Need for Change:

The statutes are obsolete since the low-income warm room program no longer exists.

Fiscal Effect:

None.

2. Amend ss. 16.385(3)(c) and (d), Stats.:

nee? → (c) From the appropriation under s. 20.505 (7) (m), allocate not more than \$1,100,000, of the moneys received under 42 USC-862 1 to 8629 in each federal fiscal year for the department's expenses in administering the funds to provide low-income energy assistance.

→ (d) From the appropriation under s. 20.505 (7) (o), allocate not more than \$2,900,000, of the moneys received under 42 USC 8621 to 8629 in each federal fiscal year for the expenses of a county department, another local governmental agency or a private nonprofit organization in administering under sub. (4) the funds to provide low-income energy assistance.

me if they can't do this budget, isn't it still a problem?

is this the only source? state go - appo text?

Administrative/Substantive Problem:

Current statutory language requires the Department to exceed the amount of administrative expenditures allowed under federal law.

Need for Change:

The amendment aligns Wisconsin law with the federal law.

Fiscal Effect:

None.

3. Amend s. 16.385(3)(e)1., Stats.:

1. Allocate ~~and transfer~~ to the appropriation under s. 20.505 (7) (km), 15% of the moneys received under 42 USC 862 1 to 8629 in each federal fiscal year under the priority of maintaining funding for the geographical areas on July 20, 1985, and, if funding is reduced, prorating contracted levels of payment, for the weatherization assistance program administered by the department under s. 16.39.

allocate the \$ 20.505(7) (km) under instead?

what is going on?

Administrative/Substantive Problem:

The word “transfer” at the federal level is used to denote a transfer of funds between two block grants, which is illegal. By eliminating the word, state law will be in conformity with federal terminology. The second strikethrough eliminates language referencing contract levels prior to July, 1985.

Need for Change:

The amendment aligns Wisconsin law with the federal law and also removes obsolete language.

Fiscal Effect:

None.

4. Amend s. 16.385(3)(e)7, Stats.:

7. By October 1 of each year ~~and after consulting with the department of~~ - a l l o c a t e f u n d s ~~budgeted but~~ not spent or obligated, and any funds remaining from previous fiscal years to heating assistance under sub. (6) or to the weatherization assistance program under s. 16.39.

(encumbered)

Administrative/Substantive Problem:

It is not necessary to direct the Department of Administration to consult with itself. This language was written when LIHEAP was with the Department of Health & Social Services. The Department of Administration interprets “spent” to include “obligated” funds, so adding “obligated” provides clearer direction to what funds are available to reallocate.

Fiscal Effect;

None

5. Amend s. 16.385(5)(c), Stats.:

(c) A household entirely composed of persons receiving ~~aid to families with dependent children under s. 49.19~~ cash benefits under the federal **Temporary Assistance to Needy Families (TANF) Program**, food stamps under 7 USC 2011 to 2029, or supplemental security income or state supplemental payments under 42 USC 138 1 to 1383c or s. 49.77.

Administrative/Substantive Problem:

The AFDC program has been eliminated and replaced by TANF.

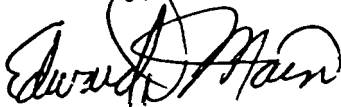

Need for Change:

The amendment is needed to reference the current program.

Fiscal effect:

None.

Edward D. Main

1999-2000 DRAFTING INSERT
FROM THE
LEGISLATIVE REFERENCE BUREAU

LRB-2554/ins

INSERT A

Under current law, the department of administration (DOA) administers a number of housing assistance programs, including a low-income energy assistance program to assist ~~low-income~~ individuals with the cost of home energy and a weatherization assistance program to assist low-income individuals with weatherization costs. This bill makes a number of technical changes to those two programs.

Current law requires DOA to administer a low-income [✓] warm room program to install certain items for energy efficiency into the residences of certain low-income individuals and to train the individuals in the use of the items. Because DOA no longer conducts this program, the bill eliminates all [✓] references to the program.

Under current law, DOA is required to allocate for program administration expenses certain dollar amounts of moneys received from the federal government. The amounts exceed the percentages that are allowed under federal law to be used for administration expenses. The bill provides that up to the specified [✓] amounts, but not exceeding the amounts authorized under federal law, must be allocated for program administration expenses. *dollar*

Current law requires DOA to allocate moneys under one of its appropriations and to transfer the amount allocated to another DOA appropriation for weatherization ~~assistance~~. The bill eliminates the transfer so that the appropriation under which the moneys are allocated directly provides the allocated moneys for weatherization assistance.

Finally, current law provides that a household entirely composed of persons receiving aid to families with dependent children is eligible for low-energy assistance. Because aid to families with dependent children no longer exists and Wisconsin works is the replacement public assistance program, the bill provides that a household entirely composed of a Wisconsin works group is eligible for low-energy assistance. *income*

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

I realize that this bill is not supposed to have a fiscal effect but, technically, limiting the amounts under s. 16.385 (3) (c) and (d) (although, an allocation does not require expenditure) and eliminating the mandate to administer a low-income warm room program would appear, on the face of it, to have a fiscal effect. At least ~~they~~ certainly could have a fiscal effect.

6 legislation by the department of administration).

Analysis by the Legislative Reference Bureau

Under current law, the department of administration (DOA) administers a number of housing assistance programs, including a low-income energy assistance program to assist low-income individuals with the cost of home energy and a weatherization assistance program to assist, low-income individuals with weatherization costs. This bill makes a number of technical changes to those two programs.

Current law requires DOA to administer a low-income warm room program to install certain items for energy efficiency into the residences of certain low-income individuals and to train the individuals in the use of the items. Because DOA no longer conducts this program, the bill eliminates all references to the program.

Under current law, DOA is required to allocate for program administration expenses certain dollar amounts of moneys received from the federal government. The amounts exceed the percentages that are allowed under federal law to be used

for administration expenses. The bill provides that up to the specified dollar amounts, but not exceeding the amounts authorized under federal law, must be allocated for program administration expenses.

Current law requires DOA to allocate moneys under one of its appropriations and to transfer the amount allocated to another DOA appropriation for weatherization assistance. The bill eliminates the transfer so that the appropriation under which the moneys are allocated directly provides the allocated moneys for weatherization assistance.

Finally, current law provides that a household entirely composed of persons receiving aid to families with dependent children is eligible for low-income energy assistance. Because aid to families with dependent children no longer exists and Wisconsin works is the replacement public assistance program, the bill provides that a household entirely composed of a Wisconsin works group is eligible for low-income energy assistance.
