Assumptions Used in Arriving at Fiscal Estimate

1999 Assembly Bill 676 would require local units of government to hold a public hearing before accepting something of value offered to the governmental unit if it could reasonably be expected to influence decision making or be considered a reward. It is likely that the bill's enactment will result in local governments holding a certain number of public hearings that would not otherwise occur. Increased costs from holding the public hearings could arise in the form of per diems for elected officials and staff overtime pay. The Ethics Board has no real basis for estimating the number or cost of such public hearings as the relationship of 1999 AB 676 to programs administered by the Ethics Board is remote
