Assumptions Used in Arriving at Fiscal Estimate

SUMMARY OF BILL -This bill makes a number of changes to regulations governing the operation of snowmobiles, and the administration of Snowmobile recreation aids. These provisions relate to the operation of snowmobiles proceeding in opposite directions; vehicle noise levels for snowmobiles; operation of snowmobiles by law enforcement officers on highways; tampering with odometers of snowmobiles and all-terrain vehicles (ATVs) and with hour meters of boats, snowmobiles and all-terrain vehicles; inspection of equipment on snowmobiles; transfer of snowmobile registration certificates; exempting accidents occurring in certain snowmobile races or derbies from requirements to render aid and from reporting and investigation requirements; use of fees collected for snowmobile trail use stickers for snowmobile trail maintenance costs; and calculating the estimated snowmobile gas tax payment. These changes are all of a "clean-up" nature, to clarify existing laws with regard to these topics.

FISCAL IMPACT - There is no significant fiscal impact with regard to the provisions in the bill. There are minor increases and decreases of costs associated with the various provisions, but over-all, these provisions will improve the enforcement of regulations with regard to snowmobiles, ATVs, and boats, and will not increase or decrease net costs to the Department. The provisions regarding snowmobile recreation aids changes the way those aids are administered, but does not increase or decrease revenues or costs associated with snowmobile recreation aids.

It is assumed there are no local government costs associated with these provisions.
