**Assumptions Used in Arriving at Fiscal Estimate:**

Under current law, claimants precertify for the lottery and gaming credit once every 5 years. The precertification procedures are administered early in the property tax year by county treasurers and the City of Milwaukee treasurer. If a property is eligible for the credit and the property tax bill does not reflect the credit, property owners may claim the credit with the taxation district treasurer through January 31 following the issuance of the claimant's property tax bill.

Under the bill, claimants may apply for the credit after January 31 to the Department of Revenue. No claims may be made after October 1 following issuance of the property tax bill.

The bill will result in a small increase in the total number of credits extended in a given year. These additional credits will reduce the amount available for credits in the subsequent year.

The bill will have little or no local administrative costs since credits claimed under the extended deadline will be administered by the Department of Revenue. The department would be required to process claims made after January 31, issue checks for the amount of the credits and communicate the credit information to county treasurers. The costs are expected to be minimal.
