1 providing an exemption from emergency rule procedures, granting

Analysis by the Legislative Reference Bureau

Under current law, a person who is 18 or older may make a donation of all or a part of his or her body to a hospital, physician or an organ procurement organization; to an accredited medical or dental school, college or university; or to a designated individual. This anatomical gift may be made only if the donor signs a document of gift, which may be a card, a statement attached to or imprinted on a driver's license or identification card issued by the department of transportation (DOT), a will or another writing, such as a power of attorney for health care, that is used to make such a gift. The department of health and family services (DHFS) is required to prepare and provide copies of a power of attorney for health care instrument for distribution to the public; the form for the power of attorney for health care instrument that DHFS must prepare is specified in the statutes.

This bill creates a donor registry board that is attached to DHFS, composed of 11 voting and two nonvoting members. The donor registry board must review requests for proposals and award one or more contracts from general purpose revenues, as appropriated under the bill, to establish, operate and maintain a Wisconsin donor registry. The Wisconsin donor registry shall include names of and pertinent information about persons who have signed enrollment forms indicating their desires to make anatomical gifts. The bill authorizes the signing of an enrollment form to be an additional means of making a document of gift. This information is not subject to open records requirements and may be released by the registry only to organ procurement organizations, eye banks, tissue banks, the donor registry board and any successor contractors. Before the Wisconsin donor registry is implemented, the donor registry board must promulgate rules that ensure the confidentiality of registry enrollees and may promulgate the rules as emergency rules without making a finding of emergency. The entity that operates the registry must operate also a toll-free telephone number and may maintain an Internet Web site to provide information about making an anatomical gift and about enrollment in and disenrollment from the registry. The donor registry board must study the effectiveness of the registry and, by March 1, 2003, report the study results to the governor and the legislature.

The bill also modifies the power of attorney for health care form, to indicate that, since many institutions have certain conditions that must be met before receiving a donated body, if the principal intends to donate his or her whole body to an institution, the principal will attempt to contact the institution to which the donation is intended to be made. In addition, the bill authorizes DHFS to modify the form with respect to making an anatomical gift, to include the toll-free telephone number to obtain information on the Wisconsin donor registry.

Under current law, DOT is required to inquire whether an applicant for a driver's license or identification card (ID card) desires to be an organ donor. DOT

ASSEMBLY BILL 915

must record the applicant's response in its file on the person. The bill requires DOT to forward to the Wisconsin donor registry, at least quarterly, a list of the names and addresses of those applicants whose response to this inquiry was affirmative. The bill also requires DOT to print the toll-free telephone number to obtain information on the Wisconsin donor registry on the reverse side of every driver's license and ID card. Finally, DOT must disseminate the enrollment form to all applicants for a driver's license or ID card.

Lastly, the bill requests that the entity that operates and maintains the Wisconsin donor registry study and, by January 1, 2002, report to the donor registry board on the means by which names and information may be purged from the registry after a period of time.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

21 POWER OF ATTORNEY

22 FOR HEALTH CARE

23 Document made this.... day of.... (month),.... (year).

24 CREATION OF POWER OF

25 ATTORNEY FOR HEALTH CARE

ASSEMBLY BILL 915

1 I,... (print name, address and date of birth), being of sound mind, intend by this
2 document to create a power of attorney for health care. My executing this power of
3 attorney for health care is voluntary. Despite the creation of this power of attorney
4 for health care, I expect to be fully informed about and allowed to participate in any
5 health care decision for me, to the extent that I am able. For the purposes of this
6 document, “health care decision” means an informed decision to accept, maintain,
7 discontinue or refuse any care, treatment, service or procedure to maintain, diagnose
8 or treat my physical or mental condition.

9 In addition, I may, by this document, specify my wishes with respect to making
10 an anatomical gift upon my death.

DESIGNATION OF HEALTH CARE AGENT

12 If I am no longer able to make health care decisions for myself, due to my
13 incapacity, I hereby designate.... (print name, address and telephone number) to be
14 my health care agent for the purpose of making health care decisions on my behalf.
15 If he or she is ever unable or unwilling to do so, I hereby designate.... (print name,
16 address and telephone number) to be my alternate health care agent for the purpose
17 of making health care decisions on my behalf. Neither my health care agent nor my
18 alternate health care agent whom I have designated is my health care provider, an
19 employe of my health care provider, an employe of a health care facility in which I
20 am a patient or a spouse of any of those persons, unless he or she is also my relative.
21 For purposes of this document, “incapacity” exists if 2 physicians or a physician and
22 a psychologist who have personally examined me sign a statement that specifically
23 expresses their opinion that I have a condition that means that I am unable to receive
24 and evaluate information effectively or to communicate decisions to such an extent

ASSEMBLY BILL 915

1 that I lack the capacity to manage my health care decisions. A copy of that statement
2 must be attached to this document.

3 GENERAL STATEMENT OF
4 AUTHORITY GRANTED

5 Unless I have specified otherwise in this document, if I ever have incapacity I
6 instruct my health care provider to obtain the health care decision of my health care
7 agent, if I need treatment, for all of my health care and treatment. I have discussed
8 my desires thoroughly with my health care agent and believe that he or she
9 understands my philosophy regarding the health care decisions I would make if I
10 were able. I desire that my wishes be carried out through the authority given to my
11 health care agent under this document.

12 If I am unable, due to my incapacity, to make a health care decision, my health
13 care agent is instructed to make the health care decision for me, but my health care
14 agent should try to discuss with me any specific proposed health care if I am able to
15 communicate in any manner, including by blinking my eyes. If this communication
16 cannot be made, my health care agent shall base his or her decision on any health
17 care choices that I have expressed prior to the time of the decision. If I have not
18 expressed a health care choice about the health care in question and communication
19 cannot be made, my health care agent shall base his or her health care decision on
20 what he or she believes to be in my best interest.

21 LIMITATIONS ON
22 MENTAL HEALTH TREATMENT

23 My health care agent may not admit or commit me on an inpatient basis to an
24 institution for mental diseases, an intermediate care facility for the mentally
