1 **AN ACT.... relating to:** the authority of the joint committee on finance to
2 supplement the appropriation for the badger care health care program and to
3 approve a request from the department of health and family services to change
4 certain eligibility standards of the badger care health care program and making
5 an appropriation.

Analysis by the Legislative Reference Bureau

JCF

Under current law, the joint committee on finance (~~committee~~) may supplement any appropriation of any department, board, commission or agency with moneys that are appropriated to JCF if JCF finds that an emergency exists, no moneys are available in the appropriation and the legislature has authorized the purposes for which JCF supplements the appropriation. Current law also authorizes JCF to transfer appropriated moneys between any two appropriations, other than a sum sufficient appropriation, or programs if JCF finds that the transfer will eliminate duplicative functions, create more effective and efficient programs or more effectively carry out the legislature's intent.

Also under current law, the department of health and family services (DHFS) administers the badger care health care program which provides health care to certain families and certain children who do not reside at home. Currently, as a condition of initial eligibility for the badger care program, a family or a child who is not currently residing at home may not have an income that exceeds 185% of the poverty line. Under 1999 Wisconsin Act 9 (the biennial budget act), DHFS is

health care

BILL

required, subject to the approval of JCF, to lower the maximum income level for initial eligibility for the badger care program if DHFS determines that current funding for the program is insufficient. If, after JCF approves a lower maximum income level, DHFS determines that funding for the program is sufficient to raise the initial maximum income level, DHFS is required to raise the initial maximum income level to not more than 185% of the poverty line.

Under this bill, JCF is authorized to transfer appropriated moneys from any appropriation of a state agency, other than a sum sufficient appropriation, to DHFS to supplement the badger care health care program. This bill also creates a sum sufficient supplemental appropriation for JCF to supplement the appropriation to DHFS for the badger care health care program. This bill also authorizes DHFS to use in fiscal year 1999-~~00~~ moneys appropriated for the badger health care program in fiscal year 2000-01.

Finally, under this bill, JCF may not approve a request by DHFS to lower the maximum income level for initial eligibility for the badger care health care program until July 1, 2001.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

SECTION 1. 13.101 (4r) of the statutes is created to read:

13.101 (4r) (a) The committee may transfer appropriated moneys from the appropriation account of any state agency, as defined in s. 20.001 (1), other than a sum sufficient appropriation account, to the appropriation account under s. 20.435 (4) (bc) to supplement the badger care health care program. Upon the transfer, the amounts in the schedule for the appropriation under s. 20.435 (4) (bc) are increased by the amount credited for the fiscal biennium in which the crediting occurs.

(b) Notwithstanding par. a) and subs. (3) and (4), from the appropriation under s. 20.865 (4) (d), the committee may supplement, the appropriation to the department of health and family services under s. 20.435 (4) (bc) for the badger care health care program. 1 AN ACT to amend 20.435 (4) (bc); and to create 20.865 (4) (d) of the statutes;

2 relating to: authorizing the joint committee on finance to supplement an

3 appropriation for the badger care health care program and authorizing the

4 department of health and family services to establish certain reimbursement

5 rates for health care services provided under the badger care health care

6 program and making an appropriation.

Analysis by the Legislative Reference Bureau

Under current law, the joint committee on finance (JCF) may supplement any appropriation of any department, board, commission or agency with moneys that are appropriated to JCF if JCF finds that an emergency exists, no moneys are available in the appropriation and the legislature has authorized the purposes for which JCF supplements the appropriation. Current law also authorizes JCF to transfer appropriated moneys between any two appropriations, other than a sum sufficient appropriation, or programs if JCF finds that the transfer will eliminate duplicative functions, create more effective and efficient programs or more effectively carry out the legislature's intent.

Also under current law, the department of health and family services (DHFS) administers the badger care health care program. Under this program, DHFS reimburses health care providers for health care services provided to certain families and certain children who do not reside at home. The rates of reimbursement are established by DHFS.

low-income

BILL

for costs of increasing enrollment and changing the rate of reimbursement paid to health care providers

Under this bill, JCF is authorized in the 1999-2001 fiscal biennium to transfer appropriated moneys from any general purpose revenue appropriation of a state agency, other than a sum sufficient appropriation, to DHFS to supplement the badger care health care program. This bill also creates a sum sufficient supplemental appropriation for JCF to supplement in the 1999-2001 fiscal biennium the appropriation to DHFS for the badger care health care program. This bill also changes the appropriation to DHFS for the badger care health care program from the annual appropriation to a biennial appropriation.

Finally, under this bill, DHFS may establish rates of reimbursement for health care services provided under the badger care health care program that are higher than those paid under the medical assistance program. If DHFS establishes higher rates, an rates are effective from the effective date of this bill to June 30, 2001.

For further information see the **state** fiscal estimate, which will be printed as an appendix to this bill.

1 **AN ACT** to repeal 20.865 (4) (d); to amend 20.435 (4) (bc); and to create 20.865
2 (4) (d) of the statutes; relating to: authorizing the joint committee on finance
3 to supplement an appropriation for the badger care health care program and
4 authorizing the department of health and family services to establish certain
5 reimbursement rates for health care services provided under the badger care
6 health care program and making an appropriation.

Analysis by the Legislative Reference Bureau

Under current law, the joint committee on finance (JCF) may supplement any appropriation of any department, board, commission or agency with moneys that are appropriated to JCF if JCF finds that an emergency exists, no moneys are available in the appropriation and the legislature has authorized the purposes for which JCF supplements the appropriation. Current law also authorizes JCF to transfer appropriated moneys between any two appropriations, other than a sum sufficient appropriation, or programs if JCF finds that the transfer will eliminate duplicative functions, create more effective and efficient programs or more effectively carry out the legislature's intent.

Also under current law, the department of health and family services (DHFS) administers the badger care health care program. Under this program, DHFS reimburses health care providers for health care services provided to certain low-income families and certain low-income children who do not reside at home.

BILL

If JCF finds that transferring the money will eliminate duplicative functions, create more effective and efficient programs or more effectively carry out the legislature's intent.

Under this bill, JCF is authorized in the 1999-2001 fiscal biennium to transfer appropriated moneys from any general purpose revenue appropriation of a state agency, other than a sum sufficient appropriation, to DHFS to supplement the badger care health care program for costs of increasing enrollment and changing the rates of reimbursement paid to health care providers. This bill also creates a sum sufficient supplemental appropriation for JCF to supplement in the 1999-2001 fiscal biennium the appropriation to DHFS for the badger care health care program for costs of increasing enrollment and changing the rates of reimbursement paid to health care providers. This bill also changes the appropriation to DHFS for the badger care health care program from ~~an~~ annual appropriation to a biennial appropriation.
