The PEHCCB will contract with an actuary for necessary actuarial work and, once the plan is established, with an administrator to assume the plan's general administration. In developing this estimate, it is assumed that the administrator, in conjunction with the Department, will:

- 1. Develop a marketing plan;
- 2. Prepare marketing materials, applications and other necessary forms;
- 3. Negotiate premiums with the participating insurers;
- 4. Oversee an annual open enrollment period at a time designated by the PEHCCB;
- 5. Collect all applications for coverage and premium from the employers, record all enrollments and disenrollments and distribute to the appropriate insurer;
- 6. When applicable, distribute the commission to the appropriate agent;
- 7. Establish a grievance procedure and, if possible, resolve disputes between the insured and the insurer; and
- 8. Keep all records and prepare reports for the PEHCCB and the Department.

Once the PEHCCB has approved the plan and contracted with an administrator, the PEHCCB will meet no more than five times annually. All costs incurred by the Department and the PEHCCB, including any legal costs to establish the plan and the costs to contract with the administrator and the actuary, will be charged to the plan and paid by the participating employers.

The bill provides for 3.5 FTE GPR positions effective on the effective date of the bill and funded from the appropriation under s. 20.515 (2)(a). However, the bill provides for no GPR appropriation to fund the positions after January 1, 2002. The Department expects these positions to be allocated in the following way: 1.0 FTE employe benefit plan director 1 to perform general development and administrative oversight of the plan; 0.5 FTE program assistant 3 to serve as board coordinator to staff the PEHCCB; 1.0 FTE employe benefit plan policy advisor to conduct research and assist in plan design; and 1.0 FTE program assistant 2 to provide general assistance to other staff including current Department staff who will be involved in the design, development and general administration of the plan.

Actuarial Services	\$25,000	\$25,000	
Marketing Brochure and Insurance Rate Publication (10,000 x \$.60 each for paper and printing) (8,000 x \$.78 each for envelopes and postage)	6,000 6,300	·	
Totals:	\$237,900	\$186,300	\$80,200

Although not explicit in the bill, the Department assumes that as currently drafted anyone participating in the Private Employer Health Plan (PEHP) who believes that he or she has been adversely affected has the right to a Chapter 227 review. If that is correct, the Department and the PEHP will incur legal costs that have not been included in this fiscal estimate.

NOTE: The 3.5 FTE GPR positions are not scheduled to continue beyond January 1, 2002. All monies that the Department currently administers are trust fund dollars, and the Department may not use the monies for other than trust fund purposes. If the positions are not changed to PR and charged to the participating employers as of January 1, 2002, the Department will have no means to fund the positions and, therefore, manage the program.
