Analysis by the Legislative Reference Bureau

The office of the commissioner of insurance administers the state life insurance fund (fund). The fund may issue any type of life insurance policy, with a limit not exceeding \$10,000, to a state resident. Premiums are paid into the fund, and net profits are distributed annually among policyholders. The state is not liable for any obligation of the fund. This bill increases the limit on a life insurance policy that may be issued by the fund from \$10,000 to \$20,000.
