1. **JACKET** the draft for introduction

in the **Senate**  or the **Assembly**  (check only one). Only the requester under whose name the drafting request is entered in the LRB's drafting records may authorize the draft to be submitted. Please allow one day for the preparation of the required copies.

2. **REDRAFT.** See the changes indicated or attached \_\_\_\_\_.

A revised draft will be submitted for your approval with changes incorporated.

3. Obtain **FISCAL ESTIMATE NOW**, prior to introduction \_\_\_\_\_.

If the analysis indicates that a fiscal estimate is required because the proposal makes an appropriation or increases or decreases existing appropriations or state or general local government fiscal liability or revenues, you have the option to request the fiscal estimate prior to introduction. If you choose to introduce the proposal without the fiscal estimate, the fiscal estimate will be requested automatically upon introduction. It takes about 10 days to obtain a fiscal estimate. Requesting the fiscal estimate prior to introduction retains your flexibility for possible redrafting of the proposal.

If you have any questions regarding the above procedures, please call 266-3561. If you have any questions relating to the attached draft, please feel free to call me.

## 1997 ASSEMBLY BILL 701

January 13, 1998 - Introduced by Representatives HARSDORF, BOCK, POWERS, NOTESTEIN, BAUMGART, OLSEN, RYBA, TURNER, FREESE, STASKUNAS, R. YOUNG and BALDWIN, cosponsored by Senators BURKE, COWLES, DARLING and ROSENZWEIG. Referred to Committee on Environment.

- 1 **AN ACT to amend 287.23 (3) (b); and to create 287.07 (1m) (c) of the statutes;**  
2 **relating to: a ban on disposal and incineration of used automotive oil filters.**

---

### *Analysis by the Legislative Reference Bureau*

Current law prohibits the disposal of waste oil in a solid waste disposal facility and the burning of waste oil without energy recovery in a solid waste treatment facility. Used automotive oil filters that are not lead-plated may be disposed of in a solid waste disposal facility or burned without energy recovery in a solid waste treatment facility, if the oil filter is first properly drained of waste oil. Current law requires each city, village, town, county or other governmental unit responsible for a region's solid waste management ("responsible unit") to develop and implement a recycling or other program to comply with state bans on disposal of specified materials in a solid waste disposal facility.

Beginning on January 1, 2000, this bill prohibits the disposal of used automotive oil filters in a solid waste disposal facility and the burning of a used automotive oil filter without energy recovery in a solid waste treatment facility. When the prohibition takes effect each responsible unit is required to develop and implement a recycling or other program to comply with the disposal ban created by this bill. The bill makes the costs of complying with this prohibition eligible for this state's annual recycling grants to responsible units.

A person who disposes of or burns a used automotive oil filter on or after January 1, 2000, in violation of this ban may be required to forfeit not more than \$50

**ASSEMBLY BILL 701**

for a first violation, \$200 for a 2nd violation or \$2,000 for a 3rd or a subsequent violation.
