Assumptions Used in Arriving at Fiscal Estima	ate:					
This bill creates a sales and use tax	exemptio	n for U.S. and Wi	sconsin State flags.			
The Flag Research Center estimates that national and state flag sales total nearly \$300 million annually. Industry data suggests that at least half of these sales would be to organizations that are exempt from Wisconsin's sales and use tax (i.e., schools, government offices, etc.). Based on Wisconsin's share of U.S. population, taxable sales of U.S. and state flags are estimated at \$2.9 million (\$300 million x 50% x 1.9%) annually. Therefore, the revenue loss associated with this proposal is an estimated \$145,000 (\$2.9 million x 5%) annually.						
In 1998, local sales tax revenues collected by Wisconsin counties and the Southeast Wisconsin Professional Baseball Park District were 6.24% of state sales tax revenues. Assuming this percentage applies, local sales tax revenue would be reduced by \$9,000 (\$145,000 x 6.24%) annually.
