 3 (b) and 341.15 (1g) of the statutes; **relating to:** a single registration plate for
 4 certain older vehicles.

Analysis by the Legislative Reference Bureau

Under current law, the department of transportation (DOT) issues two license plates for each automobile, motor truck, motor bus, school bus, self-propelled mobile home or dual purpose mobile home registered on an annual or quarterly basis. Current law requires both license plates to be properly attached to the vehicle whenever the vehicle is operated.

This bill requires DOT to issue only a single license plate for these vehicles that are of model year 1968 or earlier. Current law requires vehicles for which only a single plate is issued to display the plate on the rear of the vehicle, except that some types of trucks and municipally owned vehicles may display the single plate on the front of the vehicle to enhance visibility of the plate.

The bill also requires DOT to issue only a single registration plate for specially registered “antique” vehicles (model year of 1945 or earlier) and for “collector” vehicles (motor vehicles 20 or more years old that are not used as primary transportation). The bill allows the owner of an antique vehicle, collector vehicle or vehicle that is of model year 1968 or earlier for which DOT has issued two registration plates to display either one or two plates at the owner’s discretion.
