Analysis by the Legislative Reference Bureau

Beginning in the 2000–01 school year, current law directs the state technical college system board to award a \$500 grant to each first–year student who enrolls in a technical college on a full–time basis within three years of graduating from a high school in this state and maintains a grade point average of at least 2.0. A student who receives such a grant is eligible to receive a \$500 grant in the following school year as well.

This bill makes eligible for the grant described above students who receive a certificate of general educational development from the state superintendent of public instruction.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
