PRELIMINARY DRAFT NOT READY FOR INTRODUCTION

groot

AN ACT ...; relating to: dams, ditches and drains used in the cultivation of

2 cranberries.

1

3

Analysis by the Legislative Reference Bureau

Under current law, the construction and maintenance of dams, ditches and drains that are used in the cultivation of cranberries are exempt from all of the permitting and other regulatory requirements administered by the department of natural resources (DNR) that cover dams and other structures and activities that affect navigable waters. This bill repeals this exemption.

Also, current law requires that counties, towns, cities, villages railroad companies and the department of transportation (DOT) provide ditches, culverts and similar facilities along highway and railroad grades so that surface water from low-lying areas continues its natural flow. Current law exempts from this requirement highway and railroad grades used to hold water for cranberry cultivation or conservation management. This bill repeals this exemption as it applies to cranberry cultivation.

For further information see the **state** and **local** fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

SECTION 1. 31.34 of the statutes is amended to read:

31.34 Flow of water regulated. Each person, firm or corporation maintaining a dam on any navigable stream shall pass at all times at least 25% of the natural low flow of water of such stream, except as otherwise provided by law. This section, however, shall not apply to a plant or dam where the water is discharged directly into a lake, mill pond, or storage pond or cranberry marsh, nor shall it apply to cases where in the opinion of the department such minimum discharge is not necessary for the protection of fish life. Any person, firm or corporation violating this section shall be fined not less than \$50 nor more than \$1,000.

SECTION 2. 31.35 of the statutes is repealed

SECTION 3. 31.36 $(\overset{\checkmark}{14})$ of the statutes is repealed.

SECTION 4. 88.87 (2) (a) of the statutes is amended to read:

88.87 (2) (a) Whenever any county, town, city, village, railroad company or the department of transportation has heretofore constructed and now maintains or hereafter constructs and maintains any highway or railroad grade in or across any marsh, lowland, natural depression, natural watercourse, natural or man-made channel or drainage course, it shall not impede the general flow of surface water or stream water in any unreasonable manner so as to cause either an unnecessary accumulation of waters flooding or water-soaking uplands or an unreasonable accumulation and discharge of surface waters flooding or water-soaking lowlands. All such highways and railroad grades shall be constructed with adequate ditches, culverts, and other facilities as may be feasible, consonant with sound engineering practices, to the end of maintaining as far as practicable the original flow lines of drainage. This paragraph does not apply to highways or railroad grades used to hold and retain water for eranberry or conservation management purposes.

1	SECTION 5. 88.93 of the statutes is amended to read:
2	88.93 Right to take water from drainage ditch. Any owner of lands which
3	are located in or which adjoin a drainage district and which border on a drainage
4	ditch may take water from such ditch for use in flooding lands for cranberry culture
5	or for irrigation, if such water is taken from the ditch in such a manner as not to
6	injure the ditch and the taking thereof does not materially defeat the purposes of
7	such drainage and, in case the water is to be used for irrigation, the permit required
8	under s. 30.18 (2) (a) 2. has been obtained.
9	SECTION 6. 94.26 of the statutes is repealed.

Request for Redraft of LRB 4144/1

Hi Mary,

After consulting with DNR (i.e. Jim Kurtz, 6-3695) and Bill O'Connor (255-3000), Sen. Burke requests that the following changes be made to LRB 4144/1 (re: cranberry operations):

1. Delete sections 4, 5, 8, 9, 10, 11 and 12.

2. In section 7, instead of deleting sec. 94.27, Stats., we would like to amend the current sec. 94.27 as follows: delete "under s. 94.26" and replace that clause with "for the cultivation of cranberries".

The goal of these changes is to remove modifications of the drainage district statutes and to eliminate repeals of various procedural statutes relating to liability claims involving cranberries.

Please feel free to contact Kurtz or O'Connor directly if you have technical questions.

Thank you.
