

1999 SENATE BILL 443

March 7, 2000 - Introduced by Senators SCHULTZ and CHVALA, cosponsored by Representative ALBERS. Referred to Committee on Agriculture, Environmental Resources and Campaign Finance Reform.

1 AN ACT *to amend* 31.385 (2) (d); and *to create* 20.370 (5) (ae) and 31.308 of the
2 statutes; **relating to:** funding to repair a dam located in the village of
3 Cazenovia and making an appropriation.

Analysis by the Legislative Reference Bureau

Under current law, the department of natural resources (DNR) administers a dam safety program that is funded by state bonding and that provides matching grants to municipalities and public inland lake protection and rehabilitation districts for the purpose of conducting dam safety projects that DNR has determined need to be done.

Under this bill, DNR must provide up to \$250,000 in funding from general purpose revenues to the village of Cazenovia for the repair of a dam located in the village. If the repairs cost less than \$250,000, the remaining amount must be used by DNR for projects under the dam safety program.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
