Assumptions Used in Arriving at Fiscal Estimate		
<p>The bill removes the requirement for cities, villages, and towns to enact a conservation subdivision ordinance. Every city and village with a population of at least 12,500 is required to enact a traditional neighborhood development ordinance. This bill removes towns from this requirement</p> <p>The bill encourages all state agencies, when administering laws within the context of local planning, to do so in a manner that promotes ease of incorporation of these plans into those prospective local comprehensive plans. The resultant fiscal effects of this provision are, at this time, unknown.</p> <p>The bill also calls for changing the annual appropriation of transportation planning funds meant to complete the transportation element of a given local government's comprehensive plan to a biennial appropriation. If, at the end of the biennium, there are any unencumbered balances, those funds will lapse back to the originating fund from which appropriated.</p>
