Assumptions Used in	Arriving at Fiscal Estimate		. *				
This bill allows the Board to invest assets of the four trust funds under the board's control in notes issued by the state of							
Wisconsin and in the	ne purchase of land. Currently, tr	ust fund assets are inve	ested in loans to	municipalities and school districts or			
in the State of Wisc	consin Investment Pool. An inve	stment of one million of	dollars in the pur	chase of land would decrease current			
pool income by an	estimated \$53,000 annually base	d on current annualized	l returns. Recen	t sales data indicate that an acre of			
forest land in north	ern Wisconsin is worth an estima	ated \$750-1500 an acre	depending on a	variety of factors The BCPL			
presently manages	almost half of its 80,000 acres of	land for timber produc	ction. It is diffic	ult to project timber sale revenues on			
future land purchas	es because of variances in yield. return from three typical sales of	However, based on da	ua conecieu iron	n 1999 timber sales conducted by the			
BCPL, the average	value of the land over time as ad	insted for the value of	timber cut. If the	e land were purchased from private			
sources there would	the some loss of local property t	ax revenues since the I	Board does not p	ay in lieu tax payments for lands it			
owns or acquires T	hese lossses in property tax rever	nue would be partially	offset by potenti	al increases in state aid payments.			
	bonds but are for terms of ten y						
current earnings fro	om loans which are currently at 5	.25% for a loan of ten	years in duration	l
