### *Analysis by the Legislative Reference Bureau*

Under current law, a participant in the Wisconsin works (W-2) program who is participating in a community service job or transitional placement may participate in a technical college education program as part of the community service job or transitional placement if certain requirements are met. These requirements are that a W-2 agency, after consulting with a community steering committee and a technical college district board, determines that the technical college education program is likely to lead to employment and the participant is a full-time student in the technical college education program, maintains a 2.0 grade point average and works or is employed in a community service job or transitional placement for 25 hours per week.

This bill permits a participant in a community service job or transitional placement to elect to participate in a technical college education program. This bill continues to require that a participant be employed or work in a community service job or transitional placement but eliminates the requirement that the participant work or be employed in the community service job or the transitional placement for 25 hours per week. Finally, under this bill a W-2 agency may not require a

participant who is participating in a technical college education program to be employed or to engage in work or other activities for more than 25 hours per week.
