Issue/Topic: Using Revenue from Nonresident Snowmobile Sticker for Supplemental Trail Aids

Proposed Change: 350.12(4)(bg)  
(bg) Supplemental trail aid payments. ~~Of the moneys appropriated under s. 20.370 (5) (cs), the~~ The department shall make available in each fiscal year ~~1992-93 and each fiscal year thereafter~~ from the moneys appropriated under s. 20.370 (5) (cs) an amount equal to the amount calculated under s. 25.29 (1) (d) 2. and from the moneys appropriated under s. 20.370 (5) (cr) an amount equal to 77% of the nonresident sticker fee collected under s. 350.12 (3j)(b) and (e)2 to make payments to the department or a county under par. (bm) for trail maintenance costs incurred in the previous fiscal year that exceed the maximum specified under par. (b) 1. before expending any of the amount for the other purposes specified in par. (b).

Explanatory Note: Currently the source of funds to pay for supplementary maintenance payments is the money generated by the .4 multiplier identified in the motor fuel tax formula. The snowmobile community has indicated a strong desire to add to this fund source for supplementary payments and has identified the source as the funds collected under the new nonresident sticker fee. The motivation for this change has been the fact that demand has exceeded available funding in two of the last three years, requiring pro-rating supplemental payments at significantly less than actual costs.

The total fee for the nonresident snowmobile sticker is \$13 (\$12.25 plus a \$0.75 issuance fee). Of the total, \$3 has been set aside to cover DNR administrative expenses, including the issuance fee, one warden enforcement position, and other administrative costs. The remaining \$10 (or 77% of \$13) is to be used for supplemental trail aids as specified in s. 350.12(4)(bg).

NATURAL RESOURCES

RECREATION

Under current law, supplemental aid for the maintenance of snowmobile trails, are appropriated from the snowmobile account in the conservation fund. The supplemental aid is made available for maintenance and grooming of state and county snowmobile trails if the actual cost of maintenance or grooming exceeds the amount determined under the trail aids formula which sets a maximum amount per mile of trail. Currently, this supplemental aid is funded by moneys transferred from the transportation fund to the conservation fund. The amount of this transfer equals 40% of the estimated snowmobile gas tax formula. The snowmobile gas tax formula amount represents an estimate of the amount of excise tax paid on gasoline by operators or snowmobiles registered in this state.

This bill provides additional funding for these supplemental trail aids from the fees received by DNR from snowmobile trail use stickers. These stickers are required on all snowmobiles that are operated in this state but not registered in this state. Under the bill, 77% of the total amount received by DNR in each fiscal year from these fees shall be made available for these supplemental trail aids.

Mary,

A few changes to LRB 0219/P1 relating to the supplemental trail aids from the nonresident snowmobile trail sticker revenues:

-- Is there a way to split the \$12.25 trail use sticker fee into \$10 for supplemental trail aids and \$2.25 for administrative and enforcement costs?

One suggestion is to modify page 2, lines 23-25 to state that \$10 of the fee under s. 350.12(3)(b) shall be credited to the appropriation account under s. 20.370(5)(cw) and modify page 2, lines 2-5 to state that the appropriation is continuing and from the amounts credited to the appropriation under s. 350.12(4)(bg)2. Another section could be created to indicate that the \$2.25 would be used to the purposes under s. 350.12(4)(a). [I'm not sure if it is necessary to state where the remaining portion of the fee goes.]

Another suggestion is to modify s. 350.12(3)(b) to split the \$12.25 and indicate that \$10 is for supplemental trail aids and \$2.25 is for administrative and enforcement costs. The other statutory changes could then just refer back to these provisions.

My intention is to eliminate the need for the 77% calculation by being able to refer to a specific amount/provision in s. 350.12. Separating the two components would also make future changes to the fee easier (most likely the Governor or Legislature would want to increase the trail aid portion and not the administrative/enforcement side) and not require future recalculation of which percentage of the new fee should go to what purpose.

I have discussed these changes with DNR and they did not see any problems with splitting the fee rather than using a percentage.

Please let me know if you have any questions.

Thanks,

Kirsten

NATURAL RESOURCES

RECREATION

Under current law, the department of natural resources (DNR) provides supplemental aid for the maintenance and grooming of state and county snowmobile trails. The supplemental aid is available for maintenance or grooming of trails if the actual cost of maintenance or grooming exceeds the amount determined under the trail aids formula which sets a maximum amount per mile of trail. Currently, this supplemental aid is funded by moneys transferred from the transportation fund to the conservation fund. The amount of this transfer equals 40% of the estimated snowmobile gas tax formula. The snowmobile gas tax formula amount represents an estimate of the amount of excise tax paid on gasoline by operators of snowmobiles registered in this state.

This bill provides additional funding for these supplemental trail aids from the fees received by DNR for snowmobile trail use stickers. These stickers are required on all snowmobiles that are operated in this state but not registered in this state. Under the bill, 77% of the total amount received by DNR in each fiscal year from these fees must be made available for these supplemental trail aids.

Mary,

A few changes to LRB 0219/1:

- \* Remove Section 1.
- \* Remove Section 3.
- \* Remove Section 4 or modify it (Page 3, line 2) to credit the amount to the snowmobile account of the conservation fund. Is this section necessary? Under s. 25.29(1m), the whole \$12.25 is deposited in the snowmobile account. Section 7 of the draft then determines to which appropriation \$10 of the \$12.25 is credited. The remaining amount should be available to cover any of the costs in ss.20.370(3)(aq), (5)(es), (9)(mu) and (mw); similar to how registration fees or the 1% of sales tax revenues collected are appropriated.

My intent is to not have to create another appropriation that expends money on the same things that four other appropriations already expend money on. I think leaving the remaining \$2.25 available for general appropriation provides the most flexibility to cover costs where and when needed. If a surplus builds up in the snowmobile account, these funds could be used for trail maintenance in the future.

Let me know if you have any questions.

Thanks,

Kirsten

**NATURAL RESOURCES**

**RECREATION**

Under current law, the department of natural resources (DNR) provides supplemental aid for the maintenance and grooming of state and county snowmobile trails. The supplemental aid is available for maintenance or grooming of trails if the actual cost of maintenance or grooming exceeds the amount determined under the trail aids formula which sets a maximum amount per mile of trail. Currently, this supplemental aid is funded by moneys transferred from the transportation fund to the conservation fund. The amount of this transfer equals 40% of the estimated snowmobile gas tax formula. The snowmobile gas tax formula amount represents an estimate of the amount of excise tax paid on gasoline by operators of snowmobiles registered in this state.

This bill provides additional funding for these supplemental trail aids from the fees received by DNR for snowmobile trail use stickers. These stickers are required on all snowmobiles that are operated in this state but not registered in this state. The fee for these stickers is \$12.25. Under the bill, \$10 of each fee is made available for these supplemental trail aids. The remaining \$2.25 is appropriated for certain law enforcement and administrative costs, including the costs of the registration program administered by DNR and the snowmobile safety and accident reporting program.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
