**DEFINE PROBLEM PRECISELY**

997-99 Biennial Budget created a \$5 fee for any title/registration transaction transmitted electronically to DMV by a financial institution. This fee was intended to replace counter service revenue which would be lost if DMV no longer performed these transactions. DMV has found that the \$5 fee is putting financial institutions at a competitive disadvantage and they are reluctant to participate in a partnership to process title/registration transactions. We must be able to attract financial institutions to our third-party program.

**PROPOSED SOLUTION**

Repeal S.341.255(4), which establishes the \$5 fee for financial institution processed title/registration transactions.

**LEGISLATIVE BACKGROUND**

This fee was established in the 1997-99 Biennial Budget.

1 AN ACT relating to: the budget.

Analysis by the Legislative Reference Bureau

Current law authorizes financial institutions to process applications for motor vehicle title and registration and requires the financial institutions to pay a fee of \$5 for each application transmitted electronically to the department of transportation (DOT). This bill eliminates this \$5 fee.
