**Subject:** Stat language changes

I wanted to get this down on paper -- As we discussed on the phone last week, I need the following changes per my briefing with the Gov:

1) Child Care and Basic Ed -- drop to 3 months of required unsubsidized employment prior to qualifying for the child care subsidy -- I already got this revision.

2) Child Care Copayment Determination -- Make the W-2 agencies (all) not the counties responsible the functions covered in this draft.

3) SSI C-supp -- \$200 for the 1st kid and \$115 thereafter -- I already got this revision. ~ 1003

4) Wage paying CSJ -- In place of the current language establishing these as a pilot - add this as an ongoing tier in the W-2 "career ladder" - available for all W-2 agencies. Limit the number of slots that can be created by adding language something like "up to 2500 slots per year, as allocated between the W-2 agencies by DWD". They would pay the minimum wage for 30 hours of required work activities and there would be no additional education and training component. The 24 month time limit would stay the same. Explicitly exempt them from eligibility from the state EITC and Homestead tax credits.

I still owe you language on the following items:

- 1) Privatization of the collection of public assistance debt
- 2) Changing the income test for child care from gross to net
- 3) TANF and CCDF allocations.

I hope to have something for you on these 3 items by the end of the week. Call if you have questions. Jenny
