Steve,

Please produce a draft to achieve the following goals:

I want a rate increase for medical assistance (MA) dental service providers.

For dental services provided in an MA fee-for-service context, provide a 10% rate increase in FY00 and a 10% rate increase in FY01.

If this 10% increase costs more than \$1,240,200 GPR in FY00, then the actual rate increase is what this \$1,240,200 GPR will buy.

If the FY01 10% increase costs more than \$2,740,800 GPR, then the actual rate increase is what this \$2,740,800 GPR will buy.

The actual rate increase in FY01 also will be limited by the percentage increase (in FY00 as compared to FY99) in the number of MA eligibles (not enrolled in HMOs with dental coverage) who receive dental care. In no case can the percentage increase exceed 10% or the cost of any rate increase in FY01 exceed the \$2,740,800 GPR amount (whichever costs less GPR).

Some examples:

If the percentage increase in MA eligibles is 5%, then the rate increase would be 5%.

If the percentage increase in MA eligibles is 15%, then the rate increase would be 10% (and if, e.g., upon recalculation with more recent data, the cost of that 10% increase is \$3,000,000 GPR, the rate increase would be the increase made possible by only \$2,740,800 GPR).

DHFS will have the responsibility for determining the actual increase in MA eligibles receiving dental services and will do this by 8/1/2000.

Under current law, dental services are provided to medical assistance (MA) recipients on a fee-for-service basis or under some form of managed care, such as through enrollment by a recipient in a health maintenance organization that provides dental services.

This bill increases the rate of payment under the MA program to dental services providers who provide services on a fee-for-services basis. The bill limits payment in fiscal year 1999-2000 to the lesser of ~~10%~~ <sup>STET</sup> over that paid for dental services in state fiscal year 1998-99 or \$1,240,200. For fiscal year 2000-01, the bill limits payment to the least of ~~10%~~ <sup>STET</sup> over that paid in fiscal year 1999-2000, \$2,740,800 or the percentage of increase over the previous year's payment that equals the percentage of increase in the number of medical assistance recipients receiving dental services on a fee-for-service basis in state fiscal year 2000-01 over the number receiving dental services on a fee-for service basis in state fiscal year 1999-2000. ✓ The department of health and family services (DHFS) must determine this percentage of increase by August 1, 2000.

Under current law, dental services are provided to medical assistance (MA) recipients on a fee-for-service basis or under some form of managed care, such as through enrollment by a recipient in a health maintenance organization that provides dental services.

This bill increases the rate of payment under the MA program to dental services providers who provide services on a fee-for-services basis. The bill limits payment in fiscal year 1999-2000 to the lesser of 10% over that paid for dental services in state fiscal year 1998-99 or \$1,225,300. For fiscal year 2000-01, the bill limits payment to the least of 10% over that paid in fiscal year 1999-2000, \$1,504,200 or the percentage of increase over the previous year's payment that equals the percentage of increase in the number of medical assistance recipients receiving dental services on a fee-for-service basis in state fiscal year 2000-01 over the number receiving dental services on a fee-for service basis in state fiscal year 1999-2000. The department of health and family services (DHFS) must determine this percentage of increase by September 1, 2000. The increase in the rate of payment created by the bill does not include budgeted changes in total payments that may be attributed to

changes in recipient utilization of dental services that are provided on a fee-for-service basis.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
