CORRESPONDENCE MEMORANDUM

**STATE OF WISCONSIN
Department of Administration**

From: Andrew J. Statz *AS*
DOA - State Budget Office

Subject: OJA federal and matching funds to DOJ for DNA analysis

We are looking to use three non-statutory provisions to establish three grants of one-time federal and matching moneys from Office of Justice Assistance (OJA) to Department of Justice (DOJ) for DNA equipment and databank conversion. They are:

1. Lab equipment replacement and maintenance. Non-statutory language could read:

From federal and program revenue moneys appropriated to the department of administration for the office of justice assistance under section 20.505(6)(h) of the statutes, as affected by this act, and section 20.505(6)(pc) of the statutes, the department shall expend \$275,000 one-time funding in fiscal year 1999-2000 and \$400,000 one-time funding in fiscal year 2000-2001 to provide the department of justice with funding for the purchase, maintenance, and replacement of crime lab equipment, as affected by this act.

2. STR equipment. Non-statutory language could read:

From federal and program revenue moneys appropriated to the department of administration for the office of justice assistance under section 20.505(6)(h) of the statutes, as affected by this act, and section 20.505(6)(pc) of the statutes, the department shall expend \$226,800 one-time funding in fiscal year 1999-2000 to provide the department of justice with funding for the purchase of equipment to implement the new DNA analytical technique known as short tandem repeat (STR), as affected by this act. The amounts in the schedule to provide grants for weed and seed projects under s. 165.982 and for law enforcement technology under s. 165.983.

3. DNA databank conversion. Non-statutory language could read:

From federal and program revenue moneys appropriated to the department of administration for the office of justice assistance under section 20.505(6)(h) of the statutes, as affected by this act, and section 20.505(6)(pc) of the statutes, the department shall expend \$450,000 one-time funding in fiscal year 1999-2000 to provide the department of justice with funding for outsourcing the conversion of the existing DNA databank to the new STR technology, as affected by this act.

I have modeled these provisions after OJA's commitment to provide funding for assistant DAs in Milwaukee under non-statutory section 9101.

Let me know if you have any questions. Thanks again.

Transfer \$ to DoJ.

Analysis by the Legislative Reference Bureau

STATE GOVERNMENT

OTHER STATE GOVERNMENT

Currently, the department of administration (DOA) receives various appropriations for the office of justice assistance (OJA). This bill requires DOA to transfer federal and program revenue moneys received for OJA to the department of justice (DOJ) to fund certain programs. Specifically, the bill requires DOA to make the following transfers:

1. \$275,000 in fiscal year 1999-2000 and \$400,000 in fiscal year 2000-01, to be used for the purchase, replacement and maintenance of state crime laboratory equipment.
2. \$226,800 in fiscal year 1999-2000, to be used for the purchase of equipment for analyzing deoxyribonucleic acid using the short tandem repeat method.
3. \$450,000 in fiscal year 1999-2000, to be used for converting DOJ's deoxyribonucleic acid data bank to make it compatible with the short tandem repeat method of deoxyribonucleic acid analysis.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

1 SECTION 1. 20.455 (2) (k) of the statutes is amended to read:
 2 20.455 (2) (k) *Interagency and intra-agency assistance; investigations,*
 3 *deoxyribonucleic acid.* All moneys received from any state agency regarding

Yesterday I had a couple revisions to # 1411/1 Funding for DNA analysis. One of the Gov's decisions today reduced the amount going to DOJ in this draft for lab equipment.

The non-statutory directive to OJA in Section 9101(1) Purchase, replacement and maintenance of state crime lab equipment must be reduced to \$254,700 per year in both FY00 and FY01. The split is \$191,000 from 20.505(6)(pc) and \$63,700 from 20.505(6)(kt).

Sorry this info wasn't available in yesterday's e-mail.

Subject: Revisions to OJA non-statutory provisions for DNA and crime lab expenses

A few revisions regarding LRB draft # 1411/1:

1. References to 20.505(6)(h) must be updated to reflect the renumbering of the appropriation to 20.505(6)(kt) in draft # 1265/1. *For comp. 6*

or

2. References to DNA in 20.505(6)(h) may be eliminated. Twenty-six program areas tied to the Byrne anti-drug money determine the use of these OJA-administered funds. These mandates include not only drugs, but also DNA, domestic violence, anti-terrorism, etc. Since PL 99-570 already defines those purposes, we do not need them in our statutes. When 20.505(6)(h) was renumbered (6)(kt) without reference to DNA, that is acceptable. References to DNA in 20.455(2)(k) may also be eliminated.

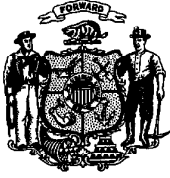

3. Dollar amounts in Section 9101(1) *Purchase, replacement and maintenance of state crime lab equipment* need to be reduced to \$254,700 per fiscal year. This change was originally sent to you in an e-mail dated Thursday, January 14. *Done in 11/2"*

This language is pulled directly from draft #1267/1. We are familiar with this language from existing non-statutory provisions, and common verbiage helps us to easily identify these OJA directives.
