WATER QUALITY

Under current law, the department of natural resources (DNR), in conjunction with the department of agriculture, trade and consumer protection (DATCP), the land and water conservation board (LWCB) and local governmental units, administers a program to provide financial assistance for measures to reduce water pollution from nonpoint (diffuse) sources. Current law authorizes the issuance of general obligation bonds as one source of funding for the financial assistance under the nonpoint source program. This bill increases the bonding authority for the nonpoint source program by \$14,400,000.

Current law authorizes DNR to provide cost—sharing grants for projects to assist agricultural facilities to comply with nonpoint source water pollution control requirements established by DNR and DATCP. These cost—sharing grants are currently funded with proceeds of general obligation bonds. This bill increases the bonding authority for the cost—sharing grants by \$2,000,000.
