**Subject:** Interagency projects appropriation for the Governor's Office

Could you please have drafted as an item for the budget a new PRS appropriation in Office of the Governor for the funding of projects and purposes agreed to between the Governor and other state agencies? It could be modeled after the current law s.20.292(1)(kb) Interagency projects; state operations. The amounts in the schedule to be expended for state operations in conformity with the purposes and requirements agreed to by the Governor. All money received from state agencies for state operations shall be credited to this appropriation.

The goal here is to have a means for funding the costs of projects in Office of the Governor which are undertaken in the Office and which involve the programs and policies of other state agencies. For example, we intend to request in this appropriation a position to assist the Governor in rail transportation policies the costs of which will be billed to the Department of Transportation by mutual agreement.

Please advise of questions.

1. I have not included in this draft any authority for state agencies to transfer administration of their statutory functions to the governor's office. Rather, the draft provides for the governor's office to assist in the implementation of these functions. If we must transfer functions completely and perhaps permanently, the draft would have to be much more detailed.

2. A common string attached to the receipt of federal moneys by this state is to require the governor or legislature to designate a *single* state agency to administer the moneys. If the governor's office assists with policy development, research or advice on program implementation I would not think this would pose a problem, but I don't know how sticky the federal agencies might be on this. In any event, I think it would probably pose a problem with the single agency requirement if we had actual joint administration of a program.

Jenny Sajna has requested that we add a reference to the DWD appropriation (20.445(3)(mc) which will be providing some TANF moneys into this new Governor's Office appropriation in 1821. It is how she is tracking where the TANF dollars are going. Another draft with this construction is 1842. As you may know, Tina has been handling this on your end.
