Paper #896

Repeal of Appropriations (Circuit Courts, Court of Appeals and Supreme Court)

[LFB 1999-01 Budget Summary: Page 126, #2, Page 187, #2 and Page 563, #10]

CURRENT LAW

1997 Act 27 (the 1997-99 biennial budget act) created two program revenue appropriations, under the Court of Appeals and the Supreme Court respectively, to fund a portion of the costs associated with information technology initiatives under the Court of Appeals and the Supreme Court. Act 27 also created a program revenue appropriation under the Circuit Courts to fund a portion of the costs of reimbursing counties for court interpreter services. The appropriations are funded from program revenues from certain court fees deposited the Circuit Court Automation Program (CCAP). Act 27 also modified the CCAP appropriation to reflect these changes. Because CCAP program revenues have been insufficient to support these appropriations, expenditure authority has not been used.

GOVERNOR

Delete \$45,000 PR annually and repeal the program revenue appropriation for court interpreter fee reimbursement to counties. Delete \$10,400 PR annually and repeal the program revenue appropriation for the Court of Appeals automated information systems. Delete \$12,800 PR annually and repeal the program revenue appropriation for the Supreme Court automated information systems. Modify the court information systems and interpreters (CCAP) appropriation to delete "and interpreters" from the appropriation title.

MODIFICATION

Modify the court information systems (CCAP) appropriation language and schedule title to reflect the repeal of the Circuit Courts court interpreter fees program revenue appropriation

and the Court of Appeals and Supreme Court information systems program revenue appropriations.

Explanation: The Governor's bill did not modify the CCAP appropriation language or chapter 20 schedule title to properly reflect the above changes.
