Specify that a corporation receiving a grant may use the grant for urban forest protection, water resource enhancement or other urban open space objectives and must do all of the following with the grant: (a) provide technical assistance to interested groups, especially in the areas of urban open space real estate transactions; reclaiming and restoring the natural values of urban parks, urban forests and open space areas; cultivating citizen participation in acquiring, developing and maintaining open space areas; and securing public financing for open space areas; (b) conduct conferences on these topics; (c) assist community groups, nonprofit organizations and local governmental units in acquiring urban property for open space purposes and in restoring urban property acquired for conservation, recreation and other open space purposes; and (d) prepare a report in each fiscal year detailing the purposes for which a grant is expended and require that the report be submitted to DNR and to the appropriate standing committees of the Legislature.

Provide that a corporation receiving a grant may acquire urban property for conservation, recreation and other open space purposes.
