Joint Committee on Finance

Paper #903

Educational Telecommunications Access for State Residential Schools (TEACH Board)

[LFB 1999-01 Budget Summary: Page 567, #7]

CURRENT LAW

The telecommunications access program provides subsidized access to new data lines and video links to school districts, private schools, CESAs, technical college districts, private colleges or public library boards. In addition, the program provides grants to school districts and private schools that had in effect on October 14, 1997, (the effective date of the 1997-99 state budget), a contract for access to a data line or video link.

GOVERNOR

Expand the educational telecommunications access program to include the Wisconsin School for the Visually Handicapped and the Wisconsin School for the Deaf and provide \$55,200 annually in a new, biennial appropriation for the estimated cost of the telecommunications access for these schools. Require the Department of Administration (DOA) to coordinate with TEACH to provide these schools with contracts for telecommunication access. Provide that moneys received by DOA from the Department of Public Instruction for its share of the cost of telecommunications access services provided to the state residential schools would be used in providing access services.

MODIFICATION TO BASE

Modify a cross-reference to reflect that payments for the state residential schools' telecommunication access services not funded by TEACH would be paid from the DOA appropriation that receives moneys from state agencies rather than the DOA appropriation that receives moneys from local governmental units and entities in the private sector. In addition,

W 505 (1)
~~(K)~~
(KL) ?

modify the cross-reference under which the state residential schools would be eligible for the program from the statutory section relating to eligibility for technical college districts under the telecommunications program to the general telecommunications access program section number.

Explanation: These modifications would replace two incorrect cross-references with appropriate section numbers. These modifications are necessary to accomplish the Governor's intent that the two state residential schools be eligible for TEACH telecommunications access funding.
