Senator Burke

COMMERCE -- DEPARTMENTWIDE AND ECONOMIC DEVELOPMENT

Economic Development Audit

Motion:

Move to request the Joint Audit Committee to consider directing the Legislative Audit Bureau to conduct an audit that would determine whether state government:

- a. has a comprehensive economic development strategy that enables the state to compete effectively;
- b. has a comprehensive state development budget that accounts for development-related expenditures by various state agencies, and plans adequately for future development investments;
- c. is using both tax policy and performance-based incentives to improve future competition and economic growth;
- d. has existing incentive programs that compliment the state's overall development goals;
- e. clearly defines strategic economic development goals for the state's development finance programs, and manages and monitors the programs on that basis;
- f. could effectively implement a performance-based economic development strategy.

Note:

This motion would request the Joint Committee on Audit to consider directing the Legislative Audit Bureau to conduct an audit of state economic development strategies and activities.

1. I think it is okay to request the committee to direct (rather than to consider directing) the bureau to perform an audit; since it is only a request, the committee is not required to direct the audit. Let me know, though, if you want the "consider" language.
2. I just made up a date for the report. Let me know if you want it changed.

3. ~~Do~~ Do you want the audit to be a financial audit also? I thought that might not be appropriate since it ~~is~~ would not be a particular agency or a particular program that would be audited.
