Bear Hunting Changes

Motion:

P 16-0

Move to establish a system of awarding Class A bear hunting licenses under which a person may apply to DNR for either a license or a preference point. Specify that an applicant who is selected to receive a license would lose any preference points once selected to receive the license. Provide that an unsuccessful applicant would receive a preference point for the next application cycle. Allow an applicant applying for a preference point to pay the required fees and automatically receive a preference point for the next application cycle.

Also, move to delete the current law provision prohibiting DNR from authorizing the pursuit of bear with dogs or the training of dogs to track bear, trail bear or engage in any other activity that contributes to locating bear in any area of the state where DNR has not authorized the use of dogs to hunt bear.

Note:

Under current law, applicants for Class A bear hunting licenses may decline the permit and still receive a preference point for the next application cycle. An option is not currently available for those applicants who do not intend to accept the licenses, to only apply for a preference point. Applicants who fail to apply at least once during any three years lose all previously accumulated preference points.

license

This motion would also delete the provision of 1997 Act 249 that established restrictions on the training of dogs in areas of the state where the use of dogs to hunt bear is not authorized.
