Senator Plache

HEALTH AND FAMILY SERVICES

Body Alarm System for Mendota Mental Health Institute

Motion:

Move to provide one-time funding of \$320,000 (\$233,000 GPR and \$87,000 PR) in 1999-00 for the Mendota Mental Health Institute to purchase an 800 MHZ radio body alarm system, which would be used by staff who have direct contact with patients. Include a nonstatutory provision that specifies that this funding could only be used for the acquisition of a 800 MHZ radio body alarm system.

(a) Funding Placed in TFC appropriation
(b) Use direct funding or leasing, as recom. by joint finance.

Note:

The body alarm system would function as both a two-way radio and an alarm system. This motion would support the acquisition of 85 individual units and the associated equipment, such as a transmitter and repeaters. Of the 85 individual units, 20 would be equipped with a "man-down" feature, which would emit a non-audible signal when the device is tipped a certain number of degrees. The other 65 individual units would require the staff person to push a button to activate the alarm.

The funding split between GPR and PR reflects the current population mix at Mendota of GPR-supported and PR-supported patients. Currently, approximately 73% of patients days at Mendota are related to GPR-supported patients.

[Change to Bill: \$233,000 GPR and \$87,000 PR]
