WORKFORCE DEVELOPMENT

Youth Options Program

Motion: 12-4

Move to modify the youth options program as follows:

a. ~~Delete the current law provision that allows a pupil to attend a private, nonprofit institution of higher education under the program.~~

b. Provide that at the time a pupil attains senior status, as determined by the school board of the district in which the pupil's high school is located, he or she would be eligible to participate in the youth options program for no more than two consecutive semesters.

c. Delete the provision that specifies that if a pupil is enrolled at a technical college under the program during any semester for seven credits or more that are eligible for high school credit, the school district is required to pay to the technical college an amount equal to 50% of the school district's average per pupil cost for regular instruction and instructional support services in the previous school year multiplied by the number of credits taken for high school credit divided by 15. Specify that a school district would be required to pay an amount equal to tuition, course fees and books for courses taken for high school credit, regardless of the number of credits eligible for high school credit for which the pupil is enrolled.

d. Specify that if a school board is required to pay to a postsecondary institution, on behalf of a pupil participating in the program, an amount equal to the cost of tuition, course fees, books and, if applicable, other necessary materials directly related to the course, the tuition amount charged by the postsecondary institution could not exceed the tuition rate for resident undergraduates.

at the inst

incl. WTCS

Note:

This motion would make the following changes to the youth options program:

Eligible Postsecondary Institutions. Under current law, a pupil who meets certain requirements may enroll at a UW System institution, a Wisconsin Technical College System (WTCS) institution, a participating tribally controlled college or a participating private nonprofit

college for the purpose of taking one or more courses. This motion would prohibit a pupil from attending a private college under the youth options program.

Pupil Eligibility. Under current law, any public school pupil enrolled in the 11th or 12th grade may attend a UW institution or a participating private college or tribally controlled college under the program. A pupil may attend a WTCS institution provided that he or she has completed the 10th grade and meets other specified criteria. This motion would specify that, once a pupil attains senior status, as determined by the school board, he or she would be eligible to participate in the youth options program for no more than two consecutive semesters. This motion would not affect a pupil's eligibility prior to his or her attainment of senior status.

Payment by School Board. Under current law, if a pupil attends a UW System institution under the program and the pupil's school district is required to pay for the course(s), the amount of the payment is the actual cost of tuition, fees books and other necessary materials directly related to the course. If a pupil attends a WTCS institution under the program, for each semester that the pupil is enrolled at the technical college, the school board is required to pay an amount determined as follows:

1. If the pupil is enrolled for less than seven credits that are eligible for high school credit, for those courses taken for high school credit, an amount equal to the cost of tuition, course fees and books.

2. If the pupil is enrolled for seven credits or more that are eligible for high school credit, for those courses taken for high school credit, an amount equal to 50% of the school district's average per pupil cost for regular instruction and instructional support services in the previous school year multiplied by the quotient of the number of credits taken for high school credit divided by 15.

This motion would delete the provision that requires a school board to pay an amount based on school district average per pupil cost. Instead, the motion would specify that, for those courses taken for high school credit, school board would be required to pay an amount equal to the cost of tuition, course fees and books, regardless of the number of credits taken that are eligible for high school credit. In addition, this motion would specify that if a school board is required to pay tuition on behalf of a pupil enrolled under the program, the tuition amount could not exceed the amount charged to resident undergraduates by the postsecondary institution.
