TRANSPORTATION

Motion:

Move the following:

Approve the following changes to the base:

1. *General Transportation Aid -- Funding Level [Paper 925]*. Provide \$9,794,500 SEG in 1999-00 and \$21,319,400 SEG in 2000-01 to fund increases in the calendar year distributions for both counties and municipalities equal to 6.0% in 1999-00 and 1.0% in 2000-01. In addition, set the calendar year distribution for counties at \$83,469,000 for 2000 and \$84,303,700 for 2001, and thereafter, and for municipalities at \$262,603,400 for 2000 and \$265,229,400 for 2001, and thereafter. Establish the mileage aid rate at \$1,692 per mile for calendar year 2000 and \$1,709 per mile for calendar year 2001, and thereafter. Further, require that payments be made based on the share of costs calculation in the event the amounts calculated under the share of costs and mileage aid components of the transportation aids formula are the same.

Further, for calendar year 2000 and 2001 aid payments, suspend the aid calculation formula and provide the percentage increase in total funding uniformly for all aid recipients, based on their 1999 aid payment amounts.

2. *General Transportation Aid -- Local Highway Mileage [Paper #927, Modification]*. Approve the Governor's recommendation as modified to specify that the changes in jurisdictional mileage would be reflected in transportation aid calculations for the second calendar year following the year in which the plat was certified.

3. *General Transportation Aid -- Law Enforcement Costs. [LFB Summary: Page 579, #3]*. Provide DOT the authority to determine the portion of law enforcement costs to be used in determining transportation aid payments. Require DOT to make this determination in consultation with representatives of local governments and their associations, as appointed by the DOT Secretary. Allow DOT to establish different portions of law enforcement costs for different classes of counties or municipalities. Highway-related law enforcement cost data are part of the three-year and six-year average costs used in determining payments under the general transportation aid formula and are currently calculated as varying percentages of total law enforcement costs, as

Al Runde:

The change in the mileage rate for calendar year 2000 is irrelevant, since aid for that year is based solely on the percentage change in the total amount of available aid.

Please review proposed s. 86.30 (10) closely. I separated counties and municipalities for separate treatment in the event that subsequent changes to the budget bill vary the percentage changes in aids for counties and municipalities.
